EFFORTS TO REDUCE RACIAL, ETHNIC, AND ECONOMIC ISOLATION

Below is the description submitted by this school of how it provides educational opportunities for its students to interact with students and teachers from diverse racial, ethnic, and economic backgrounds.

In an effort to increase interactions among students with varying backgrounds, our district took part in these inter-district programs: The Center for Global Study Inter-district Magnet Program in Norwalk; the Regional Center for the Arts Magnet hosted at CES in Trumbull; The Westhill Vocational Agriculture Program in Stamford; the Stamford Academy of Inf Tech & Eng; the Western Region CMEA HS Music Festival; FCIAC HS competitions; CSDE Interdistrict Music Composition Program. We also participated in the A Better Chance Program; Respect for Differences, Kids Giving Back: Building with Books; UNICEF; Save the Children; Person-to-Person; Diversity Day (DIVE Day), Anti-Defamation League: NAMES Program, & the China Youth Exchange Project. Darien attracts many international families. Students with dominant languages other than American English include Danish, Japanese, Spanish, Chinese, Korean, Sudanese, Norwegian, British, Urdu, Farsi, French, German, Italian, Burmese, Greek, Latvian, Portuguese, Albanian, Dutch, Persian & Russian. Students from NYC were in residence in Darien through the ABC (A Better Chance Program). Students & a Darien teacher volunteered as tutors in a program operated in the Stamford schools. We were involved in the Fresh Air program. A formal intercultural exchange has continued with a high school in Shanghai, China & in Qingdao, China. At the middle school, there has been collaboration on a project to link students in Darien, CT with students in Darien, Panama. At the elementary level, we have participated in Person-to-Person, & students sustain an internet project with students from a New Mexico Indian Reservation. Student & teacher participation in interscholastic athletics, music & theater activities remain high, so through these we maintain student-to-student interaction with urban & suburban schools in the region. The district is encouraged with the results of these programs over the 1998-2011 time spans. It is continuing to develop each of these activities both in scope & participation. We are looking for other opportunities to collaborate with our urban and suburban neighbors.

EQUITABLE ALLOCATION OF RESOURCES AMONG DISTRICT SCHOOLS

Below is the description submitted by this district of how it allocates resources to insure equity and address needs.

By virtue of its policies and practices, The Darien Board of Education recognizes the need to provide equal education opportunity and access to resources at all of its schools, but especially among its five elementary schools.

The annual budget, developed in part on the basis of per capita formulas, ensures that adequate resources are available to all programs and students K-12. Even in the area of PTO contributions, guidelines have been established to ensure that all schools have substantially similar access to enrichment funds. The school district adheres to a general class size policy and identifies purchasing priorities each year to be certain that resources are allocated to specific programs, schools, projects and human resources. District initiatives are identified through system-wide planning and curriculum evaluation processes. These initiatives are discussed publicly throughout each year's budget process. In addition, assessments are conducted each year to determine the needs of individual school buildings.

Accommodations for a student's disability may be made to allow him or her to participate in testing. Students whose disabilities prevent them from taking the test even with accommodations are assessed by means of a list of skills aligned to the same content and grade level standards as the CMT and CAPT.

Federal law requires that students with disabilities be educated with their non-disabled peers as much as is appropriate. Placement in separate educational facilities tends to reduce the chances of students with disabilities interacting with non-disabled peers, and of receiving the same education.

SCHOOL DISTRICT IMPROVEMENT PLANS AND ACTIVITIES

The following narrative was submitted by this district.

Among our examples of student academic progress is performance on the CMT's. By grade 8, the percent of students scoring at or above the State goal in math has grown from 87% in 2001 to 94% in 2011. The percent of 8th graders scoring at or above the State goal in reading has grown from 88% in 2001 to 96% in 2011. In writing the percent of 8th graders scoring at or above the State goal has grown from 85% in 2001 to 92% in 2011. Similarly, on the 10th grade CAPT test, the percentage of students scoring at or above goal between 2001 and 2011 has increased as follows: in math from 73% to 88%; in reading from 73% to 83%; in writing from 71% to 91%; and in science from 71% to 76%. Another such measure of sustained academic growth in the school district has been student performance on the SAT's. In mathematics, Darien's average SAT math score was 588 in 2001. It was 617 in 2011. On the verbal SAT, the average went from 567 in 2001 to 589 in 2011 and the writing score went from 579 in 2007 to 604 in 2011. Finally, in the area of Advanced Placement Testing, 94% of our students who took AP tests earned a score of 3 or higher. Also, the percentage of students who earned scores of 5 was 50%. From 2001–2011 enrollment in AP courses has increased over 150%.
