Notes

Unless otherwise noted, all data are for 2015-16 and include all grades offered by the district.

In most tables, data are displayed only for the three major race/ethnicity categories. For additional race/ethnicity categories, please visit edsight.ct.gov.

State totals are not displayed as they are not comparable to district totals.

Special Education tables reflect only students for whom the district is fiscally responsible.

* When an asterisk is displayed, data have been suppressed to ensure student confidentiality.

N/A is displayed when a category is not applicable for a district or school.

Performance and Accountability

District Performance Index (DPI)

A District Performance Index (DPI) is the average performance of students in a subject area (i.e., ELA, Mathematics or Science) on the state summative assessments. The DPI ranges from 0-100. A DPI is reported for all students tested in a district and for students in each individual student group. Connecticut's ultimate target for a DPI is 75.

¹NAEP is often called the "Nation's Report Card." It is sponsored by the U.S. Department of Education. This table compares Connecticut's performance to that of national public school students. Performance standards for state assessments and NAEP are set independently. Therefore, one should not expect performance results to be the same across Smarter Balanced and NAEP. Instead, NAEP results are meant to complement other state assessment data. To view student subgroup performance on NAEP, [click here](#).

²The Connecticut Physical Fitness Assessment (CPFA) is administered to all students in Grades 4, 6, 8 and 10. The health-related fitness scores gathered through the CPFA should be used to educate and motivate children and their families to increase physical activity and develop lifetime fitness habits.

³Only students assessed in all four areas are included in this calculation.

⁵College readiness exams and benchmark scores are as follows:

- SAT® - meets benchmark score on SAT, Revised SAT or Connecticut School Day SAT
- ACT® - meets benchmark score on 3 of 4 exams (benchmark score varies by subject)
- AP® - 3 or higher on any one AP® exam
- IB® - 4 or higher on any one IB® exam
- Smarter Balanced - Level 3 or higher on both ELA and math

⁶Participation Rate equals the number of test-takers in 11th and 12th grade divided by the number of students enrolled in those grades, as a percent.

Next Generation Accountability Results

These statistics are the results from Connecticut's Next Generation Accountability System for districts and schools. This system is a broad set of 12 indicators that help tell the story of how well a school is preparing its students for success in college, careers and life. It moves beyond test scores and graduation rates and instead provides a more holistic, multifactor perspective of district and school performance and incorporates student growth over time.

Narratives

School District Improvement Plans and Parental Outreach Activities

PowerSchool was brought into Gilbert with the start of the new administration. All parents have access to PowerSchool and school messenger provides email blasts, texts messages and calls to parents. We have sent staff members to PowerSchool University for training.

Each Sunday evening the principal sends a message to all parents, students, staff and faculty communicating upcoming events, items of concern and any other pertinent information. Email blasts are also sent out either daily or as needed.

Our website has been completely reformatted and a web manager within the building has been hired to update it daily. Teachers all have been given iPads to begin the implementation of websites and utilize them to send correspondence to teachers using many methods.

We conduct open houses, course selection nights, Community forums and we have continued with the GPA (Gilbert Parent Ambassador) Program which is a non- fundraising PTO, focusing on a different theme each month to provide information to parents and allow for questions to be answered and concerns to be addressed. The number of participants has grown each school year and parents 7-12 are included.

Curriculum writing is an ongoing process and throughout the year 2015-2016, each department was given opportunity to restructure curriculum to focus on common score standards. This has proven to be a valuable as the curriculum is aligned, benchmarks created and common formative and summative assessments designed. The Atlas Rubicon system was purchased and implemented to give easier access and consistency across all departments.

Lessons created by all our faculty not only address the inquiry based SBAC test and newly designed SAT's, but also integrate higher level thinking skills daily into our curriculum. Data is used to drive instruction through 7, 8 and 9th grade teams as well as departments for grades 10-12. A Literacy Program was implemented and all students who are behind grade level as measured by several indicators are given direct instruction in order to improve literacy skills. The same idea has been developed in math, where math recess for grades 7 and 8 as well as remediation for high school students called math plus have helped students gain the skills they were missing. STAR Math and SRI have been given as benchmarks for every student. The initiative for every faculty and staff member as well as students in grades 9-12 has made a significant improvement by also providing an iPad to all 7th and 8th grade students as well.

A very dedicated effort was put into improving the AP program. The Gilbert School is offering fourteen AP classes and one online AP class, up from 6 classes in 2012. There are significantly more students enrolled in the AP program and significantly improved success rates of three and higher.

PSAT's are given free of charge to all grade 8, 9, 10, and 11 students and we have continued the SAT prep course in both math and English that was established to help students achieve higher levels of success. Scores rose dramatically in 2015 and graduating seniors were accepted into more prestigious schools.

Efforts to Reduce Racial, Ethnic and Economic Isolation

During the 2015-2016 school year, the Gilbert School continued the implementation of our International Residency Program, accepting seventy-four students from around the world. This program led to the creation of a Student Ambassador Program and its premise of "The Gilbert School, Connecting Winsted, CT with the World". Students from grades 7-12 took part in this program at various levels and student diversity programs were developed to not only welcome new students from around the world but to foster a sense of openness and understanding.

We have celebrated every cultural holiday that our students celebrate, by providing meals of foreign lands, productions and cultural activities as well as simple day-to-day conversations between students. The students of Gilbert have united together in this transition and it has been a wonderful experience.

Field Trips from all disciplines have occurred throughout New England, and to international countries. Our students will have the opportunity to tour in China and we hosted a visiting basketball program from Australia which included cultural awareness programs for both programs.

Responsibility, Respect and Safety are the pillars used throughout the building and the Gilbert faculty has worked hard to implement lessons throughout the Advisory Program focusing on these tenants. From Peace Day to a Community Service Program focusing on service learning and paying it forward, the students have developed an insight into what we refer to as "The Gilbert Way", giving back to others.

With an increasing number of Spanish speaking students as well, The Gilbert School hired three ELL teachers who have worked diligently to provide Professional Development for teachers working with Second Language speakers. Publications and Gilbert attire are available in multiple languages for all of our families including our international families.

The Gilbert School District

Equitable Allocation of Resources among District Schools

The Gilbert School is a one-district school. Our sending district has two representatives on the Finance Committee that develop and recommend the budget to the full Board of Education. These representatives are also members of the full Board. The Town of Winchester serves as the primary source of funding for The Gilbert School. A joint committee of Gilbert and Winchester Board members is involved in the budget process. Please be advised that the Pre-K through 6 District is in receivership. Therefore, the Winchester Board of Education is actually the Receiver.
