EFFORTS TO REDUCE RACIAL, ETHNIC, AND ECONOMIC ISOLATION

Below is the description submitted by this school of how it provides educational opportunities for its students to interact with students and teachers from diverse racial, ethnic, and economic backgrounds.

During 2009-2010, the Fairfield Public Schools continued to devise ways to address racial and ethnic isolation. Over the years, the district has responded to the needs of the student population by constructing a state-of-the-art school, developing extended day and extended year programs focused on literacy skills, hiring specially trained staff and investing in other support staff. In 2007, the Connecticut State Department of Education ordered the district to submit a plan to address the racial imbalance at McKinley Elementary School. The Board of Education approved a plan developed by the district's Cultural Diversity Task Force that addressed racial imbalance in the Fairfield Public Schools. In 2009-2010, the third year of the plan's implementation, options for students from other schools to attend McKinley Elementary, as well as McKinley students to attend other schools, were expanded. In 2008, the Fairfield Public Schools Board of Education adopted a five-year Strategic Plan that included five key components, one of which is diversity. The Diversity Action Plan takes on the charge of: We will seize opportunities and respond to the challenges of diversity in order to improve learning and our work environments. Using this strategy, a special sub-committee of community members and school officials developed an action plan to address diversity district-wide. In 2009-2010, professional development in differentiated instruction was provided for teachers. Additionally, school and community-based resources available to enhance diversity awareness were identified for staff to access. The Fairfield Public Schools curriculum contains an array of experiences and activities designed to increase student awareness regarding diversity of individuals and cultures. In addition to these experiences, the Fairfield Public Schools continues to participate in a variety of programs including the Six-to-Six Magnet School and Regional Center for the Arts in Bridgeport. Students from Bridgeport have the opportunity to enroll in Fairfield schools through the Open Choice program. Fairfield's continuing commitment to the Project Choice program provides important education and social experiences for both Bridgeport and Fairfield students.

EQUITABLE ALLOCATION OF RESOURCES AMONG DISTRICT SCHOOLS

Below is the description submitted by this district of how it allocates resources to insure equity and address needs.

The Boards of Finance and Selectmen and the Representative Town Meeting approved a budget for 2010-11 that supported continuance of the District's priorities. Within the District, each school receives a basic allocation for books, supplies and materials. Allocation is determined, in part, by the school board budget and by using a per capita calculation for the eleven elementary, three middle, two high schools and one alternative high school. A basic core of staff is assigned to each school which includes: language arts specialists, school psychologists, social workers and paraprofessionals. Equipment is updated or replaced as needed. Each school receives an equal allocation based on grade configuration. The principals and Director of Facilities conduct an annual inspection of each building to determine priority maintenance and capital outlay needs. Two elementary schools, McKinley and Holland Hill, receive Title I funding to support initiatives to improve student achievement. In accordance with the new Strategic Plan, the District continues to make a commitment to the town to practice fiscal responsibility by balancing the needs of our students with the community's willingness and ability to pay.

Accommodations for a student's disability may be made to allow him or her to participate in testing. Students whose disabilities prevent them from taking the test even with accommodations are assessed by means of a list of skills aligned to the same content and grade level standards as the CMT and CAPT.

Federal law requires that students with disabilities be educated with their non-disabled peers as much as is appropriate. Placement in separate educational facilities tends to reduce the chances of students with disabilities interacting with non-disabled peers, and of receiving the same education.

SCHOOL DISTRICT IMPROVEMENT PLANS AND ACTIVITIES

The following narrative was submitted by this district.

In March 2008, the Fairfield Board of Education approved the district's 5-year Strategic Plan. The 30 member steering committee included students, parents, teachers and community members. Six action teams were formed to work on the following areas: Community, Facilities, Communication, Diversity, Program and Technology. Plans were prioritized and begun in the 2008-2009 school year. The district entered Year 2 of the plan during the 2009-2010 school year. Each of the district's schools develops a School Improvement Plan focused on improving student achievement. An analysis of standardized test scores, internal assessment results and other data points forms the basis for improvement goals for each school and within the district. In addition, the district uses Edline as a community action tool between teachers, parents and students. Edline gives teachers a web presence and allows parents to track classroom assignments and school activities.
