### EFFORTS TO REDUCE RACIAL, ETHNIC AND ECONOMIC ISOLATION

---

Below is the description submitted by this school of how it provides educational opportunities for its students to interact with students and teachers from diverse racial, ethnic, and economic backgrounds.

With strong support from the BOE, the Bolton Public Schools are committed to fostering understanding of various groups in our society and world, promoting equity and respect among people and providing learning experiences for students to become more familiar with people from different races, ethnic groups and economic backgrounds. Equity and respect among students are promoted through the learning experiences of the academic program as well as extra-curricular and athletic programs. Our school leaders and staff have a strong commitment to provide opportunities for students in order to make progress toward reducing racial, ethnic and economic isolation in our schools. Throughout the year, teachers PreK-12 incorporated multi-cultural themes within their units of study; participated in outreach activities and structured field trips both local and abroad to further develop their understanding and appreciation for other cultures and traditions. Bolton High School implemented year one of the PBIS (Positive Behavioral Intervention Supports) program and Bolton Center School implemented year two. This program promotes a healthy school climate through positive behavior, respect of self and others and tolerance and acceptance of others differences. The PBIS teams at both schools organized numerous events and activities to promote positive behavior, tolerance and a healthy school climate. Kindness and respect are major themes in our PBIS program as is the concept of accepting others differences. Bolton has been an active participant in the Hartford Open Choice program for the last 11 years with 28 students attending Bolton schools in 2012-2013. In the spring of 2013, the Bolton Board of Education authorized the opening of 11 additional seats for the following year. Due to the size and configuration of our schools' enrollment, opportunities are limited and thus this increase is impressive. In addition, some Bolton students participate in magnet school programs such as the Great Path Academy on the campus of Manchester Community College, the Greater Hartford Academy of the Arts, International Baccalaureate Academy in East Hartford, and other CREC magnet schools. Both Bolton High School and Bolton Center School participated in Rachel's Challenge which is a program that is designed to support each individual to treat others with kindness. In the Bolton Public Schools we believe that an understanding of and respect for diverse beliefs, cultures, backgrounds, abilities and perspectives enrich the lives and learning environments for all our students.

## EQUITABLE ALLOCATION OF RESOURCES AMONG DISTRICT SCHOOLS

Below is the description submitted by this district of how it allocates resources to insure equity and address needs.

The budget development process for the Bolton Public Schools ensures equitable allocation of resources among district schools. The Board of Education and the administrative team are committed to insuring that the schools in the district receive the resources necessary to effectively implement educational programming. The budgets are specifically designed to support building goals that in turn support district goals. Expanding access to technology, moving forward with curriculum renewal, providing high quality professional learning for staff, and maintaining core programs like 3-12 World Language are the priorities in making decisions about resource allocation. The budget process entails four critical steps: 1) public and staff commentary on budget needs; 2) program area/building level budget preparation; 3) district budget development; and 4) budget presentation and work sessions. Each step of the process is designed to encourage participation and input. Prior to developing the annual budget, the Board of Education invites community-wide budget input, concerns, and priorities regarding the district programming at a regular Board of Education meeting. In addition to the operational budget, the district prepares and updates a ten-year plan for capital improvements that is submitted to the town's Capital Expenditure Committee for approval. The Board receives additional monies from both State and Federal sources to help finance remedial and special education programs.

### Participation in State Assessments of Students with Disabilities Attending District Schools

CMT	% Without Accommodations	15.0
	% With Accommodations	85.0
CAPT	% Without Accommodations	16.7
	% With Accommodations	83.3
% Assessed Using Skills Checklist		7.7

Accommodations for a student's disability may be made to allow him or her to participate in testing. Students whose disabilities prevent them from taking the test even with accommodations are assessed by means of a list of skills aligned to the same content and grade level standards as the CMT and CAPT.

Federal law requires that students with disabilities be educated with their non-disabled peers as much as is appropriate. Placement in separate educational facilities tends to reduce the chances of students with disabilities interacting with non-disabled peers, and of receiving the same education.

**SCHOOL DISTRICT IMPROVEMENT PLANS AND ACTIVITIES**

---

The following narrative was submitted by this district.

The Bolton Public Schools including parents, administration, community members, students and staff crafted the Bolton 2020 Vision, which serves as the blueprint of student outcomes designed to promote learning skills that are essential in the 21st century including creativity, leadership, innovation, collaboration, and problem-solving. With this vision in place since 2010, the Bolton Public Schools community is committed to collaborating to encourage learners to become ethical citizens who are innovative, influential leaders in their world. Particular emphasis is being placed on the successful incorporation of the Common Core State Standards in the areas of English/Language Arts and mathematics. Emphasis is on authentic assessment and analysis of student data to drive instruction across the district to improve student achievement. Professional development supports these efforts. We utilized attendance data to identify students who have attendance issues and worked with them and their families to improve their attendance rate. Although we have a very low truancy rate, this process improved the attendance of those students qualifying as truant. In the area of special education, we have focused on increasing the inclusion of all students with disabilities in general education classroom. All special educators and related services staff received professional development regarding the provision of a free appropriate public education (FAPE), responsible inclusive practices, the changing role of the special educator and related services staff, effective use of instructional supports in the general education classroom, data literacy, effective practices in the PPT decision making process and IEP development. We have an extremely active PTA which, through the efforts of many parents and the support of the entire community. They raise thousands of dollars each year to enhance the curriculum offerings for our students. Most recently, these funds have been used to bring Rachel's Challenge to the Bolton Public Schools. In 2013, Bolton High School again received Silver Medal recognition by U.S. News and World Report's as one of America's Best High Schools as well as a ranking by Newsweek as one of America's Best High Schools.
