### EFFORTS TO REDUCE RACIAL, ETHNIC, AND ECONOMIC ISOLATION

---

Below is the description submitted by this school of how it provides educational opportunities for its students to interact with students and teachers from diverse racial, ethnic, and economic backgrounds.

The total minority population in the Plainfield Public Schools has nearly doubled in the last six years. However, nearly 90% of our student population is Caucasian. At the same time, only 2% of our students speak a language other than English at home. Therefore, in order to ensure a well-rounded education for all our students that exposes our students to different cultures and ethnicities, the district must provide opportunities to experience a rich diverse world. Each school provides school-wide, grade-wide or classroom programs to all students in the school. The programs range from African drumming to Appreciation of Diversity, a day where disabilities are explored and celebrated as what makes each of us different. Plainfield has begun to send students to two area fulltime magnet schools, ACT – Arts at the Capitol Theater, the Science and Technology Magnet School, and the Quinnebaug Valley Middle College High School (QVMCHS). QVMCHS, which is housed at Quinnebaug Valley Community College includes the partner towns of Windham, Killingly, Thompson, Putnam, and Plainfield. This magnet school addresses the needs of our bright but disaffected and non-achieving high school students and provides students with opportunity to work and learn with students with other ethnic backgrounds.

**EQUITABLE ALLOCATION OF RESOURCES AMONG DISTRICT SCHOOLS**

---

Below is the description submitted by this district of how it allocates resources to insure equity and address needs.

The Plainfield Public Schools has reconfigured the schools as follows: Moosup Elementary School PK-3, Shepard Hill Elementary School PK-3, Plainfield Memorial School 4-5, Plainfield Central School 6-8, and Plainfield High School 9-12. This configuration aids in the equitable allocation of resources. In the budgeting process, all resources are displayed as per pupil resources (e.g. supplies, textbooks) by school. Therefore it is evident to the public and the Board of Education where the resources are being spent and why. The district operates systemically in terms of academic programs.

## STATE ASSESSMENTS

**Percent of Students with Disabilities Meeting State Goal.** The Goal level is more demanding than the Proficient level, but not as high as the Advanced level, reported in the No Child Left Behind Report Cards. These results are for students attending district schools who participated in the standard assessment with or without accommodations for their disabilities. Results for fewer than 20 students are not presented.

- **Connecticut Mastery Test (CMT), Fourth Generation.** The CMT reading, writing and mathematics tests are administered to students in Grades 3 through 8, and the CMT science test to students in Grades 5 and 8.
- **Connecticut Academic Performance Test (CAPT), Third Generation.** The CAPT is administered to Grade 10 students.

### Participation in State Assessments of Students with Disabilities Attending District Schools

CMT	% Without Accommodations	19.8
	% With Accommodations	80.2
CAPT	% Without Accommodations	28.6
	% With Accommodations	71.4
% Assessed Using Skills Checklist		12.8

Accommodations for a student's disability may be made to allow him or her to participate in testing. Students whose disabilities prevent them from taking the test even with accommodations are assessed by means of a list of skills aligned to the same content and grade level standards as the CMT and CAPT.

Federal law requires that students with disabilities be educated with their non-disabled peers as much as is appropriate. Placement in separate educational facilities tends to reduce the chances of students with disabilities interacting with non-disabled peers, and of receiving the same education.

**SCHOOL DISTRICT IMPROVEMENT PLANS AND ACTIVITIES**

---

The following narrative was submitted by this district.

The Plainfield Board of Education set four goals for the 09/10 school year: All students will attain full literacy/numeracy as measured by local, state, and national standards; All students will use technology as a learning tool; Plainfield students will respect themselves and others; and, all students will graduate high school. In order to reach those goals, a district steering committee, the Plainfield Instructional Improvement Program Committee, oversees the work of each School Leadership Team. Each School Leadership Team and grade level team determines what areas of focused improvement are needed at the school and classroom levels. Keeping students in school was one focused strategy employed by the school district in the 2009/2010 school year. Daily student attendance increased at all levels as a result of the efforts of the school administration and the school social workers and the percent of students attending less than 90% of the year decreased significantly at the high school. The number of discipline incidents was reduced by 74% at the middle school and 15% at the high school. In addition, the number of out-of-school suspensions was reduced by 90% at the middle school and 21% at the high school. The success in using literacy facilitators in grades K – 3 has spawned the development of literacy labs for both reading and mathematics in grades 6 – 8 and 9 – 12. A literacy facilitator will be working with remedial reading and remedial mathematics teachers in grades 6 – 8 to diagnose and prescribe for individual students who scored in bands 1 or 2 in reading and/or mathematics on the CMT and will coach classroom teachers in teaching reading in the content areas. In grades 9 – 12, a reading lab and a mathematics lab will be open and staffed through out the school day. A daily writing initiative at the high school increased the percent of students performing at goal by 15%.
