## HOME AND SCHOOL COMMUNICATION AND SUPPORT

**Teacher E-Mail Addresses:** All teachers at this school have been issued e-mail addresses.

The following narrative about how this school promotes and supports parental involvement was submitted by this school.

- Elm City College Prep supports parents in many ways. Our Parent Coordinator sends home a parent update every Wednesday and is in constant email communication with many of our parents. Teachers and administrators communicate with parents about student academic and behavioral progress each Friday. In addition, parents attend Progress Report Nights to discuss final grades with teachers. Parents are given four weeks notice prior to Progress Report Nights to inform them of how they can support their children as the near the end of term.
- In 2007-08, Elm City College Prep enjoyed another year of high levels of involvement and commitment from various subgroups of parents at the school. Our elementary academy hosted a series of six parent workshops that tackled important issues like "Stranger Danger" and "Saving for College", as well as parenting issues such as child behavior, supporting academic success, and peer pressure. There were huge parent turnouts for each of the Encore Festivals, which provide students the opportunity to showcase their extracurricular talents. Parents also held important leadership positions on our campus, including serving on our Board, representing our school at Connecticut state legislative meetings, and participating in the Parent Leadership Committee (PLC).

### EFFORTS TO REDUCE RACIAL, ETHNIC, AND ECONOMIC ISOLATION

---

Below is the description submitted by this school of how it provides educational opportunities for its students to interact with students and teachers from diverse racial, ethnic, and economic backgrounds.

- Elm City College Prep aspires to be a welcoming, tolerant community where all members have equal access to an excellent education. We continue to canvas the entire city of New Haven during student recruitment and admit students by public lottery conducted in a fair, equitable manner, thus ensuring that all participants have an equal opportunity to access the school's resources. Our staff, which includes a large number of teachers of color, reflects our commitment to creating a diverse learning environment, and our curriculum includes multicultural elements that reflect the racial, ethnic and cultural backgrounds of our students.
  - Elm City College Prep also works to reduce racial, ethnic, and economic isolation by helping its students – 98% of whom represent minority groups – overcome the traditional achievement gap, dramatically increasing and broadening their life options. Across all subject areas, Elm City College Prep's 4th and 8th grade students dramatically outperformed their peers by margins of 22-37 percentage points on the 2008 CMTs. Our math and writing scores were particularly exceptional, where 94% of 4th graders and 93% of 8th graders were proficient in mathematics. 92% of 4th graders and 95% of 8th grade students achieved writing proficiency. This demonstrates their attainment of skills and knowledge that will serve them well on their path to college and lifelong success. Summer enrichment programs like Hopkins School's Summer Bridge program and Johns Hopkins University's Center for Talented Youth provide students opportunity to explore new intellectual pursuits with peers from a variety of cultural backgrounds.

### Disciplinary Offenses

Disciplinary offenses committed by students include all serious offenses, offenses involving drugs, alcohol, or tobacco, and all incidents resulting in suspension or expulsion. In the 2006-07 school year, 18 students were responsible for these incidents. These students represent 4.9% of the estimated number of students who attended this school at some point during the 2006-07 school year. For more information and data on disciplinary offenses, go to [www.sde.ct.gov](http://www.sde.ct.gov), click on “CEDaR” and then on “Student Data.”

Federal law requires that students with disabilities be educated with their non-disabled peers as much as is appropriate. Placement in separate educational facilities tends to reduce the chances of students with disabilities interacting with non-disabled peers, and of receiving the same education.

**Connecticut Mastery Test, Fourth Generation, % of Students with Disabilities Meeting State Goal.** The reading, writing and mathematics tests are administered to students in Grades 3 through 8, and the science test to students in Grades 5 and 8. The Goal level is more demanding than the Proficient level, but not as high as the Advanced level, reported in the No Child Left Behind Report Cards. The results below are for students attending district schools who participated in the standard assessment with or without accommodations for their disabilities.

Results for fewer than 20 students are not presented. For more detailed CMT or CAPT results, go to [www.ctreports.com](http://www.ctreports.com). To see the NCLB Report Card for this school, go to [www.sde.ct.gov](http://www.sde.ct.gov) and click on "No Child Left Behind."

Accommodations for a student's disability may be made to allow him or her to participate in testing. Students whose disabilities prevent them from taking the test even with accommodations are assessed by means of a list of skills aligned to the same content and grade level standards as the CMT.

### **DISTRICT EXPENDITURES AND REVENUES, 2006-07**

Expenditures may be supported by local tax revenues, state grants, federal grants, municipal in-kind services, tuition and other sources. DRG and state figures will not be comparable to the district if the school district does not teach both elementary and secondary students.

**SCHOOL IMPROVEMENT PLANS AND ACTIVITIES**

---

The following narrative was submitted by this school.

- Our Board of Trustees includes an education committee that works with school leaders and parents to develop and implement improvement plans. Each year we administer an extensive Parent Survey in order to collect feedback on how to improve our educational model. At Elm City, we work diligently to ensure every scholar has firm footing on their climb to college by providing the critical supports necessary to succeed. We believe in educating all students in an inclusive environment to the greatest extent possible by providing a combination of small group instruction in homogeneous groups and pull-out and push-in resource rooms. Elm City launched a rigorous Saturday Academy tutoring program, designed to provide intensive support to our lowest performing scholars as they work toward mastery. Throughout the academic year, tutors teach and mentor students every Saturday during intensive four-hour blocks of one-on-one support.
- Although we have maintained remarkable success in stimulating breakthrough achievement gains, we have identified reading as a subject area that requires curricular enhancements to encourage consistently strong performance. As a result, our schools prepared to adopt a new reading curriculum for 3rd- 8th students during the 2008-2009 academic year. The new curriculum will introduce more targeted phonics and fluency instruction for our lowest readers through a separate intervention class to supplement regular reading instruction and include more time for independent reading. The new reading curriculum includes new forms of assessment, including a baseline assessment to help us formulate a tailored, individualized reading program for each student including targets for the number of books that will be read, the level of the books that will be read, and a completion date for reading these books. Reading progress will be assessed at least four times each year so that successes can be celebrated, new goals can be set, and interventions can be made if necessary. We believe this new student centered approach better targets individual reading weakness, and as a result, will significantly improve overall reading performance.

**SUPPLEMENTAL SCHOOL INFORMATION**

---

The space below was optionally used by this school to describe aspects of the school not presented elsewhere in the profile.

- Elm City College Prep fosters a positive, structured, no excuses school culture that is integral to its success as high-performing academic institutions. In addition to academics, the school's mission calls for teachers to help develop the character and leadership skills of students. Elm City College Prep has a successful character education program. Clear, school-wide expectations for student behavior are defined by five REACH values (Respect, Enthusiasm, Achievement, Citizenship, and Hard Work). The simple acronym, which students hear and see everywhere and all the time at Amistad Academy, makes it easy for teachers, students, and parents to remember and communicate what is expected of Elm City College Prep students.. Teachers help students to clearly define what each REACH value looks like, sounds like, and even feels like in terms of the specific, observable behaviors. Students have affirmative responsibilities, such as participating actively in class, wearing their uniform with pride, and helping classmates who are having trouble.
  - Both students and teachers use REACH rubrics to evaluate students' behavior in terms of observable demonstrations of REACH values. The REACH rubric is designed to be grade-specific, and older students will be expected to behave even better than younger students; our belief is that just as children should progress in reading, writing, and math, they should progress in their behavioral/REACH skills. In order to develop the positive teacher-student relationships necessary for student success, each student at Elm City College Prep has two advisors. Students meet with their advisory groups daily to explore stories, poetry, and events that reinforce the REACH values.
