### EFFORTS TO REDUCE RACIAL, ETHNIC, AND ECONOMIC ISOLATION

---

Below is the description submitted by this school of how it provides educational opportunities for its students to interact with students and teachers from diverse racial, ethnic, and economic backgrounds.

The student population in the Stamford Public Schools is broadly diverse in terms of race/ethnicity, language, and socioeconomic background. Board of Education policy requires that the demographic balance at all schools is representative of the district. The district engages in multiple initiatives related to reducing racial, ethnic, and economic isolation. After two years of deliberation, the Board of Education approved a Redistricting Plan for grades K–5, which was phased in beginning in September 2009. This plan ensures that demographic balance in each of the elementary schools is within +/- 10% of the district. The Middle School Transformation Project was initiated in 2009–10. A key component is to increase heterogeneity, and reduce tracking, in core academic courses. The Rogers Environmental Magnet School, a new interdistrict magnet, K–8, opened in a new facility in September 2009. The Office of Family and Community Engagement was initiated in 2008–09 to provide direct support to families on school related issues. Extensive efforts have been made to recruit minority staff. Spanish speaking parent liaisons have been hired in all 20 Stamford Schools. Cultural theme days, incorporating art, music, dance, and food, are held at all Stamford Schools.

**EQUITABLE ALLOCATION OF RESOURCES AMONG DISTRICT SCHOOLS**

---

Below is the description submitted by this district of how it allocates resources to insure equity and address needs.

Resources to all Stamford Schools are allocated equally based on student enrollment. Class sizes are planned to be 25 or lower in the elementary grades; specialists and education assistants are assigned based upon total school enrollment. At the middle and high schools, class sizes are planned to be 30 or lower. Special budgets allocate funds for Bilingual and Special Education students; these students are also counted in the total school enrollments for purposes of staff and material allocations. In addition to districtwide budget allotments, each school is given a per capita allocation for materials, supplies, and library books. At present, the district is studying the possibility of complementing our current allocation model based on enrollment with a weighted allocation model that incorporates differential student needs.

## STATE ASSESSMENTS

**Percent of Students with Disabilities Meeting State Goal.** The Goal level is more demanding than the Proficient level, but not as high as the Advanced level, reported in the No Child Left Behind Report Cards. These results are for students attending district schools who participated in the standard assessment with or without accommodations for their disabilities. Results for fewer than 20 students are not presented.

- **Connecticut Mastery Test (CMT), Fourth Generation.** The CMT reading, writing and mathematics tests are administered to students in Grades 3 through 8, and the CMT science test to students in Grades 5 and 8.
- **Connecticut Academic Performance Test (CAPT), Third Generation.** The CAPT is administered to Grade 10 students.

### Participation in State Assessments of Students with Disabilities Attending District Schools

CMT	% Without Accommodations	16.2
	% With Accommodations	83.8
CAPT	% Without Accommodations	13.3
	% With Accommodations	86.7
% Assessed Using Skills Checklist		13.2

Accommodations for a student's disability may be made to allow him or her to participate in testing. Students whose disabilities prevent them from taking the test even with accommodations are assessed by means of a list of skills aligned to the same content and grade level standards as the CMT and CAPT.

Federal law requires that students with disabilities be educated with their non-disabled peers as much as is appropriate. Placement in separate educational facilities tends to reduce the chances of students with disabilities interacting with non-disabled peers, and of receiving the same education.

**SCHOOL DISTRICT IMPROVEMENT PLANS AND ACTIVITIES**

---

The following narrative was submitted by this district.

In Fall 2009, the Stamford Public Schools developed a three year Strategic District Improvement Plan (SDIP), that was approved by the Board of Education and the Connecticut State Department of Education. The SDIP includes four major areas of work: 1. Curriculum, Instruction and Assessment - To provide a viable K - 12 standards-based curriculum, vertically and horizontally aligned, for all students with built in supports and opportunities for acceleration and a balanced assessment system. 2. De-Tracking/Instructional Grouping - To eliminate low-level non-standards-based instruction to ensure that ALL students are prepared for success in higher education and the 21st Century. 3. Professional Learning Communities/Data Team Process - All teachers and administrators will participate in high-functioning data-driven Professional Learning Communities and School and District Data Teams in a process of continual, instructional improvement. 4. School Culture - To ensure a safe, orderly, and positive social and emotional culture for all students, staff, and families in every school. The SDIP is monitored for fidelity by a District Data Team that includes 40 members representing all 20 schools.
