EFFORTS TO REDUCE RACIAL, ETHNIC, AND ECONOMIC ISOLATION

Below is the description submitted by this school of how it provides educational opportunities for its students to interact with students and teachers from diverse racial, ethnic, and economic backgrounds.

Region 6 continues to offer a variety of programs designed to reduce and increase awareness of racial, ethnic, and economic isolation. Wamogo Regional High School purposefully offers experiences for all students to increase awareness of diversity. Sample activities include: Interact Club which sponsors opportunities for students to gain appreciation for individual differences; and efforts to integrate content with the curriculum that exposes students to diverse populations and perspectives. At the elementary level, curriculum integration includes programs which address student differences, and provide training in strategies to prevent bullying. In addition, our entire student body participates in fund raising activities designed to support local, national and international efforts to support people who have experienced catastrophic events. Finally, each of our schools sponsors events designed to recognize diversity: an annual Heritage Luncheon, an annual Veteran's Day Breakfast, and an Arts Festival and Creation Celebration that focus on individual achievements.

EQUITABLE ALLOCATION OF RESOURCES AMONG DISTRICT SCHOOLS

Below is the description submitted by this district of how it allocates resources to insure equity and address needs.

It is the Board of Education's policy and practice to ensure that all resources are distributed equitably among all district schools. Elementary school staffs, both certified and classified, are assigned based on student population and program needs. Certified and classified staff assignments at Wamogo Regional High School are based on the course selection index and the master schedule. Special education and pupil services personnel are assigned to each school based on individual student needs. The district Technology Plan governs the distribution of computers and SMARTBoards among our schools. In addition, funds for curriculum and professional development, technology, educational supplies, textbooks, and library materials are distributed equitably based on enrollment. To this end, district budget proposals are developed collaboratively by the administrative team. In addition, the elementary principals collaboratively plan for use of itinerant (Fine Arts, Physical Education) staff to ensure equability in this area. Finally, community and parental input is actively solicited during district budget proposal development.

Accommodations for a student's disability may be made to allow him or her to participate in testing. Students whose disabilities prevent them from taking the test even with accommodations are assessed by means of a list of skills aligned to the same content and grade level standards as the CMT and CAPT.

Federal law requires that students with disabilities be educated with their non-disabled peers as much as is appropriate. Placement in separate educational facilities tends to reduce the chances of students with disabilities interacting with non-disabled peers, and of receiving the same education.

SCHOOL DISTRICT IMPROVEMENT PLANS AND ACTIVITIES

The following narrative was submitted by this district.

Region 6 continues to devote marked amounts of funding to the areas of curriculum development and instructional practice improvement. All Region 6 schools have finished curriculum mapping and have developed grade level expectations aligned to state frameworks. The district is currently writing curriculum in Language Arts and Mathematics aligned with Common Core State Standards. Improvement of provision of support services to all students (typical and those with disabilities) continues to be a priority for Region 6. Data team and SIT meetings monitor student achievement and track/modify interventions based on the SRBI model.
