Notes

Unless otherwise noted, all data are for 2014-15 and include all grades offered by the district.
 In most tables, data are displayed only for the three major race/ethnicity categories. For additional race/ethnicity categories, please visit [EdSight \(EdSight.ct.gov\)](http://EdSight.EdSight.ct.gov).
 State totals are not displayed as they are not comparable to district totals.
 Special Education tables reflect only students for whom the district is fiscally responsible.
 * When an asterisk is displayed, data have been suppressed to ensure student confidentiality.
 N/A is displayed when a category is not applicable for a district or school.

Performance and Accountability

District Performance Index (DPI)

A District Performance Index (DPI) is the average performance of students in a subject area (i.e., ELA, Mathematics or Science) on the state summative assessments. The DPI ranges from 0-100. A DPI is reported for all students tested in a district and for students in each individual student group. Connecticut's ultimate target for a DPI is 75.

¹NAEP is often called the "Nation's Report Card." It is sponsored by the U.S. Department of Education. This table compares Connecticut's performance to that of national public school students. Performance standards for state assessments and NAEP are set independently. Therefore, one should not expect performance results to be the same across Smarter Balanced and NAEP. Instead, NAEP results are meant to complement other state assessment data. To view student subgroup performance on NAEP, [click here](#).

²The Connecticut Physical Fitness Assessment (CPFA) is administered to all students in Grades 4, 6, 8 and 10. The health-related fitness scores gathered through the CPFA should be used to educate and motivate children and their families to increase physical activity and develop lifetime fitness habits.

³Only students assessed in all four areas are included in this calculation.

Next Generation Accountability Results

These statistics are the first results from Connecticut's Next Generation Accountability System for districts and schools. This system is a broad set of 12 indicators that help tell the story of how well a school is preparing its students for success in college, careers and life. It moves beyond test scores and graduation rates and instead provides a more holistic, multifactor perspective of district and school performance and incorporates student growth over time.

Narratives

School District Improvement Plans and Parental Outreach Activities

Teachers and administrators use data to inform instruction and implement personalized plans to improve student achievement. All students participate in assessments that are analyzed for both group and individual performance on specific skills. The data collected are used to provide appropriate interventions for students requiring enrichment or reinforcement. The Common Core Standards-Based Report Cards and data are maintained electronically and follow students from grade to grade to facilitate curricular articulation. The Eastford Elementary School has established a Student Assistance Team (SAT) to facilitate the Response to Intervention (RTI) program. The team analyzes data and assists teachers in developing action plans, monitoring progress of students and communicating performance with parents. Parents are invited to examine student data at parent conference times or upon request. Special education teachers and general education teachers collaborate at SAT meetings to ensure that action plans for regular and special education students are skill-specific and carried out with optimal fidelity and efficiency.

In the area of special education, Eastford has focused on increasing the inclusion of all students with disabilities in the regular classroom. The special education teachers are experts at inclusion and they co-teach at many grade levels.

Eastford Elementary has few attendance and truancy issues. The District has joined an EASTCONN collaborative to ensure proper supports when there are truancy concerns.

The Eastford District is fortunate to have five active parent groups. All stakeholders regularly help the school function as a collaborative, inclusive and resourceful educational community. 1. Among other projects, The Eastford PTO sponsors cultural programs and supports academic projects. 2. The Middle School Fundraising Group sponsors an Annual Goods and Services Auction and raises 100% of the money needed to support the eighth-grade trip to Washington, D.C. 3. The Sports Boosters support the soccer, basketball and track teams with uniforms, equipment and awards. 4. The Parent Advisory Committee meets monthly with the principal and teachers. The group discusses current school issues, policies, curriculum, technology and programs. In addition, parents are invited to participate on committees charged with school improvement efforts—wellness, technology, awards, bullying and others. 5. The Readiness Council governs the preschool program and efforts to include all parents who have pre-kindergarten children.

The PTO and Title I personnel coordinate family involvement activities each year. At least two family programs per year are coordinated with school book fairs that are planned to coincide with nighttime parent conferences in November and April. Teachers coordinate activities such as Family Math Night where they provide opportunities for parents and students to interact with staff and share academic experiences that can be brought home.

The school's website is being used as a primary home-to-school communication tool. Teachers in grades 2-8 post homework assignments online; all teachers post instructional information on the website. The parent groups also sponsor pages on the school website. The calendar, academic information and details about school events are kept up-to-date for the benefit of all parents.

Efforts to Reduce Racial, Ethnic and Economic Isolation

The Eastford School District is a one school District; the Eastford Elementary School houses grades PK-8 and high school students attend Woodstock Academy. Eastford has little diversity in population, yet the schools support efforts to reduce racial, ethnic and economic isolation. It has become apparent that up-to-date curricular goals provide a powerful vehicle for multicultural education. The curriculum is aligned with discipline-based standards as well as Connecticut's Common Core of Learning. Curriculum development has been enhanced with the purchase of teaching materials that reflect the diversity of the greater community.

Classroom experiences are supplemented with field trips and guest speakers designed to emphasize the importance of becoming active, constructive members of a larger community. Students at every grade level attend theater performances on a yearly basis and cultural programs are brought into the school throughout the year.

There has been a concerted effort to increase the resources of the Media Center. Book collections and multimedia programs are growing in volume and in diversity. Four mobile computer labs have become extensions of the Media Center. Distance Learning equipment has been obtained so that students can take virtual field trips and interact with academic experts located throughout the world. Students have been able to collaborate with students throughout the United States and even overseas.

The regional service center, EASTCONN, offers regional programs for staff and students. These foster communication and relationships between Eastford and other communities. Teachers pursue interdistrict grant programs that offer opportunities for students to communicate and collaborate with students from other community settings.

A professional development collaborative has been formed among staff in neighboring communities as well as Woodstock Academy. Administrators and teachers meet regularly to plan joint projects and cosponsor professional development programs designed to promote success for all students. Eastford students benefit because collaborating with neighboring districts increases students' exposure to a variety of viewpoints and perspectives.

Equitable Allocation of Resources among District Schools

Since Eastford is a one school District, resources remain at the Eastford Elementary School and tuition is paid to the Woodstock Academy for high school students.
