### EFFORTS TO REDUCE RACIAL, ETHNIC, AND ECONOMIC ISOLATION

---

Below is the description submitted by this school of how it provides educational opportunities for its students to interact with students and teachers from diverse racial, ethnic, and economic backgrounds.

The Bloomfield Public Schools provides numerous opportunities for its students and staff to interact with diverse populations. We participate in a number of the area magnet schools, including the Metropolitan Learning Center, the Greater Hartford Math & Science Academy, and the Greater Hartford Academy for the Performing Arts, and others. Bloomfield has also participated in a number of Interdistrict Cooperative Grants with surrounding school systems, including a long standing relationship between Bloomfield High School and Granby High School. The Big Picture High School entered into its fifth year of operation during the 2009-2010 school year and has graduated its second class. This unique school is modeled after the MET in Providence, Rhode Island and provides an individualized learning program through a series of real life experiences via internships for each of its enrolled students. Currently, there are students enrolled at the school from Bloomfield, Canton, East Hartford, Granby, Manchester, New Britain, Rocky Hill, West Hartford and Windsor. The Wintonbury Early Childhood Magnet School is in its first year of operation in 2009-2010 and provides full day programs for three, four and five year old students from Avon, Bloomfield, East Granby, Granby, Simsbury, and West Hartford. Both the Big Picture High School and the Wintonbury Early Childhood Magnet Schools are operated under the auspices of the Bloomfield Board of Education and are designed to help reduce racial and economic isolation for Bloomfield students.

## EQUITABLE ALLOCATION OF RESOURCES AMONG DISTRICT SCHOOLS

Below is the description submitted by this district of how it allocates resources to insure equity and address needs.

The Bloomfield Board of Education builds its operating budget based on the following criteria: 1. The district aligns all programs, resources, and staff allocation to the mission and objectives of its 2006-2011 Strategic Plan. 2. Each building principal, director, or budget manager builds a budget with a team that includes parents, teachers and other interested staff. The building budgets consider the district strategic plan as well as building level School Improvement Plans in assembling their budget requests. 3. Each building level budget is reviewed by the Superintendent of Schools and other central office staff to ensure equity of allocation while still addressing the needs that may be unique to an individual building. 4. Public meetings and hearings are held by the Board of Education to promote public awareness and discussion of the proposed budget.

## STATE ASSESSMENTS

**Percent of Students with Disabilities Meeting State Goal.** The Goal level is more demanding than the Proficient level, but not as high as the Advanced level, reported in the No Child Left Behind Report Cards. These results are for students attending district schools who participated in the standard assessment with or without accommodations for their disabilities. Results for fewer than 20 students are not presented.

- **Connecticut Mastery Test (CMT), Fourth Generation.** The CMT reading, writing and mathematics tests are administered to students in Grades 3 through 8, and the CMT science test to students in Grades 5 and 8.
- **Connecticut Academic Performance Test (CAPT), Third Generation.** The CAPT is administered to Grade 10 students.

### Participation in State Assessments of Students with Disabilities Attending District Schools

CMT	% Without Accommodations	26.5
	% With Accommodations	73.5
CAPT	% Without Accommodations	0.0
	% With Accommodations	100.0
% Assessed Using Skills Checklist		15.2

Accommodations for a student's disability may be made to allow him or her to participate in testing. Students whose disabilities prevent them from taking the test even with accommodations are assessed by means of a list of skills aligned to the same content and grade level standards as the CMT and CAPT.

Federal law requires that students with disabilities be educated with their non-disabled peers as much as is appropriate. Placement in separate educational facilities tends to reduce the chances of students with disabilities interacting with non-disabled peers, and of receiving the same education.

**SCHOOL DISTRICT IMPROVEMENT PLANS AND ACTIVITIES**

---

The following narrative was submitted by this district.

Student performance on the CMT at all grade level continues to show an upward trend as has been the case over the past five years. While there have been some setbacks from year-to-year in certain subtests, the overall trend remains positive with particular gains evident at the middle school. While scores are not at the desired level, we have implemented a new reading program and put tiered interventions in place for 2009-2010 that seem to have had the desired effect of moving scores forward in a positive direction. These interventions will continue for 2010-2011. Bloomfield continues to shine in the area of visual and performing arts. For the sixth year running, students from throughout the district had a chance to showcase their talents in a district wide performance held at the Bushnell in downtown Hartford. Over 800 students from grades 4 through twelve participated in this annual event. The district has embraced the need to tie instruction to data and has been training its entire certified staff in the most effective ways to use data to inform how they teach. The Data Driven Decision Making Model will be the focal point for all future curriculum decisions. Bloomfield has also adopted Positive Behavioral Support (PBS) as the district's vehicle for improving behavior of students across all grades. This process originated in the intermediate school and was implemented district-wide during the 2008-2009 school year.
