#### EFFORTS TO REDUCE RACIAL, ETHNIC, AND ECONOMIC ISOLATION

Below is the description submitted by this school of how it provides educational opportunities for its students to interact with students and teachers from diverse racial, ethnic, and economic backgrounds.

Though the school district population contains some degree of racial, ethnic and economic diversity, we are a geographical distance from districts which might offer magnet or interdisciplinary programs for our students. Our Middle School continues a partnership with the University of Connecticut and profits from its broad range of programs, staff and students. A Wide Area Network (WAN) and classroom accessibility to the Internet has expanded our students' contact with other schools and a more diverse population of students. Continuing a character education program which emphasizes accepting differences and treating all people with respect and kindness has broadened students' sensitivities to diversity. Teachers in grades four and five have implemented the "Responsive Classroom." Our teachers strive to include a variety of multicultural lessons and materials within every curriculum area. In grades two through eight, Willington students study Spanish with an emphasis on cultural and language experience.

### EQUITABLE ALLOCATION OF RESOURCES AMONG DISTRICT SCHOOLS

Below is the description submitted by this district of how it allocates resources to insure equity and address needs.

The Willington Board of Education procedures regarding distribution of district resources ensure that each school within the district receives a base level of material and financial resources. The base level of support that each school receives is determined, in part, by the approved school board budget for the year. An assessment of needs is completed by the superintendent and administrators to determine specific program needs. This assessment takes into account such factors as the student population served, the age of school facilities and student performance compared to local and state programs in order to ensure equity and address needs. The school principals and the superintendent hold monthly meetings that include monitoring of the allocation of resources. The board of education conducts several public hearings and workshops during the budget season, allowing input from the community and parents. This facilitates an understanding of the needs of the district and ensures an equitable distribution of resources among the schools.

Accommodations for a student's disability may be made to allow him or her to participate in testing. Students whose disabilities prevent them from taking the test even with accommodations are assessed by means of a list of skills aligned to the same content and grade level standards as the CMT and CAPT.

Federal law requires that students with disabilities be educated with their non-disabled peers as much as is appropriate. Placement in separate educational facilities tends to reduce the chances of students with disabilities interacting with non-disabled peers, and of receiving the same education.

#### SCHOOL DISTRICT IMPROVEMENT PLANS AND ACTIVITIES

The following narrative was submitted by this district.

Willington Public School's District Improvement Plan outlines the goals and objectives of the Board of Education. In the second year of the plan we have been successful in addressing the reading goals and have made AYP or safe harbor in whole school as well as all subgroups. The third year of the plan has been modified to address math, which has been identified as an area in need of improvement. The scientifically-based research strategies outlined in the District Improvement Plan were carefully selected. Each year the district data team does an analysis of scores and makes modifications to the plan based on the new data. Year three of the plan will shift the focus from reading and includes strategies to improve math and writing scores. The curriculum revision should be completed this for the 2011-2012 school year. The Willington Public School System will monitor the progress of this plan through the collection of data and anecdotal evidence at the district level, through analysis of progress presented by data teams, with support from the Willington Public Schools Board of Education.
