STRATEGIC SCHOOL PROFILE 2010-11

Stratford School District

IRENE L. CORNISH, Superintendent

Location: 1000 East Broadway

Telephone: (203) 385-4210

Stratford, Connecticut

Website: www.stratfordk12.org/

This profile was produced by the Connecticut State Department of Education in accordance with CT General Statutes 10-220(c) using data and narratives provided by the school district, testing services, or the US Census. Profiles and additional education data, including longitudinal data, are available on the internet at www.sde.ct.gov.

COMMUNITY DATA

County: Fairfield

Town Population in 2000: 49,976

1990-2000 Population Growth: 1.2% Number of Public Schools: 13

Per Capita Income in 2000: \$26,501

Percent of Adults without a High School Diploma in 2000*: 17.2% Percent of Adults Who Were Not Fluent in English in 2000*: 1.9% District Enrollment as % of Estimated. Student Population: 89.4%

District Reference Group (DRG): G DRG is a classification of districts whose students' families are similar in education, income, occupation, and need, and that have roughly similar enrollment. The Connecticut State Board of Education approved DRG classification for purposes of reporting data other than student performance.

SCHOOL DISTRICT DIVERSITY

Student Race/Ethnicity				
Race/Ethnicity	Number	Percent		
American Indian	55	0.8		
Asian American	240	3.3		
Black	1,618	22.2		
Hispanic	1,815	24.9		
Pacific Islander	20	0.3		
White	3,525	48.4		
Two or more races	11	0.2		
Total Minority	3,759	51.6		

Percent of Minority Professional Staff: 5.8%

Open Choice:

4 student(s) attended this district as part of the Open Choice program. Open Choice brings students from urban areas to attend school in suburban or rural towns, and students from non-urban areas to attend city schools.

Non-English Home Language:

9.3% of this district's students (excluding prekindergarten students) come from homes where English is not the primary language. The number of non-English home languages is 42.

EFFORTS TO REDUCE RACIAL, ETHNIC, AND ECONOMIC ISOLATION

Below is the description submitted by this school of how it provides educational opportunities for its students to interact with students and teachers from diverse racial, ethnic, and economic backgrounds.

The Stratford Public School District is committed to racially balancing its schools with a goal of having the minority population of each Stratford school come within ten percentage points of the district average, which was 50% in October, 2010, an increase from 47% in October, 2009. Stratford's Racial Balance Plan consists of several elements. The first is the district magnet school, Stratford Academy, which is regulated for enrollment and racial balance. Students from the original neighborhood attendance zone, as well as students from across the district, apply to attend the Academy. Another element is called the Pathway System. Each year, after reviewing enrollment data and projections, "pathways" are organized from each elementary school to either of the two middle schools and two high schools. This process creates a pathway to the secondary schools that blends elementary schools having a higher minority population with those having a lower minority population. The third element is the full-day kindergarten program, located in all elementary schools (except one) according to available space, with consideration given to numerical and racial balance. Minority students in the Stratford Academy attendance zone accepting placement in full-day kindergarten classes outside that attendance zone are expected to remain in the pathway established for the school to which they are assigned, but non-minority students are expected to return to their base school. Boundary line waivers are considered on a limited basis and are tightly controlled. students regularly participate, during the school year and during summer vacation, with students from other communities in a wide variety of inter-district academic programs, including the Six-to-Six Inter-district Magnet School. For these and additional opportunities, please contact the Stratford Board of Education. In addition, Stratford teachers and students participate in special programs, such as a school-based program to stop violence, sister city school projects, Yale's Model United Nations program, and multicultural programs sponsored at various schools. Winter and summer reading and math programs bring together students throughout the district to improve student achievement. The school district actively participates in the Stratford Youth and Family Advisory Board, the local council for positive youth development, and the Stratford School Readiness and Childcare Advisory Council. In addition, the schools partner with local community agencies and institutions in a town-wide, research-based family learning project that affirms and supports Stratford's rich cultural, religious, and ethnic diversity. The high schools create opportunities for community connections so that students can expand their knowledge of local volunteer opportunities and experiences. At the start of each school year, a Link Crew program provides a smooth transition for incoming freshmen by linking each student with an upper classman. In order to pursue the candidacy of minority educators, efforts have been made to sponsor and attend job fairs and contact has been made with local colleges and universities.

STUDENT PERFORMANCE

EQUITABLE ALLOCATION OF RESOURCES AMONG DISTRICT SCHOOLS

Below is the description submitted by this district of how it allocates resources to insure equity and address needs.

Budget allocations for the Stratford Public Schools are submitted by individual schools and departments and are reviewed by central office staff to ensure equity between schools and among levels and alignment with the Board of Education's District Goals and the District and School Improvement Plans. The central office staff, including the Superintendent, Assistant Superintendent, and Chief Operating Officer, prepare a final budget (after discussion with building principals and district coordinators) that is submitted to the Board of Education for review and approval. Allocation of resources is determined by individual needs of the schools, as justified in the zero-based budget submissions. Capital improvement and equipment needs are reviewed through the use of the Plant/Planning Committee and adoption of a five (5) year capital improvement and equipment plan (CIP/CEP). The CIP/CEP is presented to town officials for incorporation into budgetary deliberations through a liaison committee between the Town Council and the Board of Education. Data are reviewed annually to ensure each school has an equitable distribution of fundamental resources to achieve the district's goals.

	Mathematics	8.0	15.8	46.5	49.5
	Science	2.6	13.1	41.7	47.0

For more detailed CMT or CAPT results, go to www.ctreports.com. To see the NCLB Report Card for this school, go to www.sde.ct.gov and click on "No Child Left Behind."

Participation in State Assessments of Students with Disabilities Attending District Schools				
CMT % Without Accommodations 15.0				
% With Accommodations 85.0				
CAPT % Without Accommodation		27.3		
% With Accommodations 72.7				
% Assessed Using Skills Checklist 12.7				

Accommodations for a student's disability may be made to allow him or her to participate in testing. Students whose disabilities prevent them from taking the test even with accommodations are assessed by means of a list of skills aligned to the same content and grade level standards as the CMT and CAPT.

Federal law requires that students with disabilities be educated with their non-disabled peers as much as is appropriate. Placement in separate educational facilities tends to reduce the chances of students with disabilities interacting with non-disabled peers, and of receiving the same education.

SCHOOL DISTRICT IMPROVEMENT PLANS AND ACTIVITIES

The following narrative was submitted by this district.

The major goal of the Stratford Public Schools is to improve student academic performance. In light of the No Child Left Behind mandates, the Stratford Public Schools have focused on helping every child achieve proficiency or above in the areas of reading, writing, and mathematics with an emphasis on all students making goal on both the CMT and CAPT. Results show positive movement in achieving this goal and in closing the achievement gap between various cohorts of students. This year, five out of the twelve secondary and elementary schools achieved either "Safe Harbor" status or Adequate Yearly Progress (AYP) with the proficiency target goal at an increase of 10 percentage points more than last year. Although this is an outstanding effort, the District is in "Needs of Improvement" because several cohort groups fell below the proficiency standards district wide. Work continues in all areas of the curriculum, including efforts on Data Driven Decision-Making, Effective Teaching Strategies, including 21st Century Skills, Scientific Research-Based Interventions (SRBI), and School Climate. Public Schools continue to focus on improving student performance through the alignment of curricula and state standards, analysis of student data, on-going professional development, and the implementation of research-based instructional practices. Through the District Improvement Plan, an emphasis is placed on providing individual success plans for students whose scores are not yet at proficiency. These efforts are supported by tiered instruction, extended day, tutorial, and summer programs. In addition, every school annually submits a School Improvement Plan that targets students' needs through cohort analysis. In the area of special education, most of Stratford's special education students are being educated in their home schools according to the principles of least restrictive environment. As a result, staff is continually aligning goals and objectives to standards-based curricula. Also, special education personnel have aligned themselves with the core academic areas and have provided support with instruction and common formative assessments through co-teaching and collaborative initiatives (SRBI- Scientific Research-Based Intervention). The district has also provided professional development opportunities for both the general and special education staff to be trained together in the areas of behavior management and strategies for The Stratford Public School District is ensuring that parents are actively engaged working with autistic students. in the educational process. Through the District Improvement Plan, the district has expanded offerings to parents, including literacy workshops, family reading nights, read aloud programs, transition breakfasts, and CMT awareness, to name a few. In addition, resources are provided to parents in reading, math, health, and many other areas. Each School Improvement Plan includes strategies to improve communication between school and home and enhance parent engagement. The special education department has a Stratford Parent Initiative which provides social and recreational activities for students after school and on weekends. They also provide parent information sessions on least restrictive environment to involve parents in the school improvement process. enjoy the support of active PTA groups. The PTA Council (comprised of PTA presidents from each school) has joint meetings with the Superintendent and Assistant Superintendent every two months. In addition, a Special Education Parent Teacher Association has been formed recently and holds monthly meetings for parents to network, advocate, and learn about special education resources for students with disabilities. Efforts have also been made to include parents in professional development opportunities. Each Board of Education committee includes parents as voting members.
