STRATEGIC SCHOOL PROFILE 2009-10

Odyssey Community School District

Telephone:

Location: 579 West Middle Turnpike

Manchester,

Connecticut

This profile was produced by the Connecticut State Department of Education in accordance with CT General Statutes 10-220(c) using data and narratives provided by the school district, testing services, or the US Census. Profiles and additional education data, including longitudinal data, are available on the internet at www.sde.ct.gov.

SCHOOL DISTRICT DIVERSITY

Student Race/Ethnicity				
Race/Ethnicity	Number	Percent		
American Indian	1	0.6		
Asian American	9	5.0		
Black	48	26.7		
Hispanic	33	18.3		
White	89	49.4		
Total Minority	91	50.6		

Percent of Minority Professional Staff: 0.0%

Non-English Home Language:

8.3% of this district's students (excluding prekindergarten students) come from homes where English is not the primary language. The number of non-English home languages is 5.

EFFORTS TO REDUCE RACIAL, ETHNIC, AND ECONOMIC ISOLATION

Below is the description submitted by this school of how it provides educational opportunities for its students to interact with students and teachers from diverse racial, ethnic, and economic backgrounds.

Odyssey Community School continues to attract a diverse student population, with 48% reporting minority race/ethnicity and approximately 40% reporting eligibility for free or reduced lunch. Students interact with peers who come from as many as ten towns ranging from rural communities to inner city residents. Students participate in interdisciplinary curricular units and events that celebrate diversity and the human experience, including the Holocaust, Black and Asian History, Women's History and the Civil Rights Movement. Each trimester every student participates in All School Exploration (ASE). These interdisciplinary, multi-grade units include study of a particular culture. This year our multi-cultural ASE unit focused on Latin America. Invited guests spoke about Latino cultures followed by a lunch for all of our students provided by parents. Students studied a different aspect of Latino culture each week and they presented a culminating project. Students have the opportunity to interact in advisory groups to deal with stereotypes of diversity and tolerance as well as build skills to deal with threatening or bullying behaviors. The entire school is immersed in the context of our CIRCLE values of Courage, Integrity, Respect, Curiosity, Leadership and Excellence. Several field trips augment the in-school learning, and students in need of financial aid are provided with that assistance in a private and supportive way. In addition to the above, Odyssey strives to maintain an open and welcoming atmosphere for all of our parents, and we actively work to set high expectations for all students. An additional exciting school outcome is related to the achievement gap that exists state-wide between white students and students of color as measured by the CMT. In the subgroup of black students in Grade 4, 62% scored at or above proficient in math, and 25% scored at or above proficient in reading. In Grade 8, 90% of black students scored at or above proficient in math, and 90% scored at or above proficient in reading. This is a 28 point increase in math and a 65 point increase in reading for Odyssey's black students.

STUDENT PERFORMANCE

Connecticut Mastery Test, Fourth Generation, % Goal. The Goal level is more demanding than the Proficient level, but not as high as the Advanced level, reported in the No Child Left Behind Report Cards.

STATE ASSESSMENTS

Percent of Students with Disabilities Meeting State Goal. The Goal level is more demanding than the Proficient level, but not as high as the Advanced level, reported in the No Child Left Behind Report Cards. These results are for students attending district schools who participated in the standard assessment with or without accommodations for their disabilities. Results for fewer than 20 students are not presented.

- Connecticut Mastery Test (CMT), Fourth Generation. The CMT reading, writing and mathematics tests are administered to students in Grades 3 through 8, and the CMT science test to students in Grades 5 and 8.
- Connecticut Academic Performance Test (CAPT), Third Generation. The CAPT is administered to Grade 10 students.

State Assessment		Students with	Students with Disabilities		udents
		District	State	District	State
CMT	Reading	28.6	31.6	61.1	67.5

Participation in State Assessments of Students with Disabilities Attending District Schools				
CMT	N/A			
	% With Accommodations	N/A		
CAPT	% Without Accommodations	N/A		
	% With Accommodations	N/A		
% Assessed Using Skills Checklist		0.0		

Accommodations for a student's disability may be made to allow him or her to participate in testing. Students whose disabilities prevent them from taking the test even with accommodations are assessed by means of a list of skills aligned to the same content and grade level standards as the CMT and CAPT.

Federal law requires that students with disabilities be educated with their non-disabled peers as much as is appropriate. Placement in separate educational facilities tends to reduce the chances of students with disabilities interacting with non-disabled peers, and of receiving the same education.

SCHOOL DISTRICT IMPROVEMENT PLANS AND ACTIVITIES

The following narrative was submitted by this district.

Odyssey's approach to intervention for struggling students includes our Student Assistance Team (SAT) and our SRBI model. The SAT is a multidisciplinary team which meets weekly to review students who are identified as being at risk for academic or behavioral failure. The SAT supports teachers to implement Tier 1 interventions within the classroom. It also identifies students to be placed on Tier 2 interventions. These students receive remediation as well as after-school tutoring. All Odyssey students are being tested in reading using the Fountas and Pinnell assessment. They are also being universally screened for reading, writing and math using the Blue Ribbon assessment. Odyssey's teachers participated in professional development activities related to differentiation of instruction and we devoted a significant amount of professional development time to Data Driven Decision Making (DDDM), using data from a variety of assessments including CMT scores, Blue Ribbon Test scores, disciplinary data and curriculum based assessment data. Teachers used data to identify students whose skills in specific curricular areas were deficient, and they used targeted remediation to address those deficiencies. In the fall of 2010 Odyssey began using the PowerSchool student information system. This system enables enhanced parent-school communication, easier access to school data and enhanced record keeping for teachers and administrators.
