STRATEGIC SCHOOL PROFILE 2009-10

Regional School District 17

GARY S. MALA, Superintendent

Telephone: (860) 345-4534

Location: 95 Little City Road Higganum,

Connecticut

Website: www.rsd17.k12.ct.us/

This regional school district serves Haddam, Killingworth

This profile was produced by the Connecticut State Department of Education in accordance with CT General Statutes 10-220(c) using data and narratives provided by the school district, testing services, or the US Census. Profiles and additional education data, including longitudinal data, are available on the internet at www.sde.ct.gov.

COMMUNITY DATA

County: Middlesex

Town Population in 2000: 13,175 1990-2000 Population Growth: 13.7%

Number of Public Schools: 5

Per Capita Income in 2000: \$31,163

Percent of Adults without a High School Diploma in 2000*: 8.8% Percent of Adults Who Were Not Fluent in English in 2000*: 0.1% District Enrollment as % of Estimated. Student Population: N/A

District Reference Group (DRG): C DRG is a classification of districts whose students' families are similar in education, income, occupation, and need, and that have roughly similar enrollment. The Connecticut State Board of Education approved DRG classification for purposes of reporting data other than student performance.

Percent of Minority Professional Staff: 0.8%

Non-English Home Language:

0.6% of this district's students (excluding prekindergarten students) come from homes where English is not the primary language. The number of non-English home languages is 7.

EFFORTS TO REDUCE RACIAL, ETHNIC, AND ECONOMIC ISOLATION

Below is the description submitted by this school of how it provides educational opportunities for its students to interact with students and teachers from diverse racial, ethnic, and economic backgrounds.

Efforts to Reduce Racial, Ethnic and Economic IsolationRegional School District 17 lacks the diversity that many school districts are fortunate to experience on an annual basis. This is due in large part to the housing limitations and the general demographics of the communities its serves. Both Haddam and Killingworth are well below the state and national averages used to determine the cultural and ethnic distribution of various minority groups. This fact creates a situation where the school district must plan, design and initiate various cultural awareness activities to enhance and broaden the students' perspective associated with living in a diverse world. A multitude of classroom and assembly-based programs continue to be incorporated into the curriculum on an annual basis. Additional activities include organizing staff and student exchange programs with neighboring school districts and most recently has expanded to areas outside of the United States. The Region 17 Schools has committed to reinstate participation in formal student exchange programs including students from foreign countries as well as providing opportunities to district students to gain experience by visiting other countries. Additionally, cultural awareness assembly programs continue to be hosted by each school on an annual basis. These programs are multidimensional and are planned and financially supported by each school's Parent Teacher Organization. Unique programs including writing and book exchange programs continue to be implemented and expanded upon with urban districts in New Haven and Hartford. Opportunities for secondary students to complete coursework at local colleges and universities continue to support the expanded efforts of the district to include Haddam-Killingworth students in more culturally diverse learning environments. As a part of the district's technology plan, students in grades kindergarten through 12 are provided with learning activities using the latest technologies. This has allowed students to communicate and access peers across the world and exchange learning concepts. Future plans call for the Regional School District 17 schools to be host to student leadership initiatives with neighboring school district which will incorporate having students of a variety of ethnic, economic and racial backgrounds working collaboratively.

STUDENT PERFORMANCE

Connecticut Mastery Test, Fourth Generation, % Goal. The Goal level is more demanding than the Proficient level, but not as high as the Advanced level, reported in the No Child Left Behind Report Cards.

EQUITABLE ALLOCATION OF RESOURCES AMONG DISTRICT SCHOOLS

Below is the description submitted by this district of how it allocates resources to insure equity and address needs.

Equitable Allocation of Resources Among District SchoolsRegional School District 17 enjoys the multidimensional support of the communities of Haddam and Killingworth. It continues to be the practice of the administration of the Region 17 schools and the Board of Education to ensure equitable allocation of all of the districts financial resources in a manner which meets the needs of all students. The budget development process begins in early November of each year with building administrators and department supervisors submitting budget requests to the central administration of the school district. These requests are reviewed in conjunction with both the districts strategic goals, state and national requirements and clearly stated objectives for the next school year. Various data points are considered to ensure that requested funding is in alignment with district initiatives as planned. Considerable efforts continue to allow the district to use financial strategies such as cooperative purchasing, re-appropriation of existing resources and a district-wide commitment to economic efficient has resulted in outcomes.

For more detailed CMT or CAPT results, go to www.ctreports.com. To see the NCLB Report Card for this school, go to www.sde.ct.gov and click on "No Child Left Behind."

Participation in State Assessments of Students with Disabilities Attending District Schools				
CMT	20.9			
	% With Accommodations	79.1		
CAPT	% Without Accommodations	9.5		
	% With Accommodations	90.5		
% Assessed U	sing Skills Checklist	7.3		

Accommodations for a student's disability may be made to allow him or her to participate in testing. Students whose disabilities prevent them from taking the test even with accommodations are assessed by means of a list of skills aligned to the same content and grade level standards as the CMT and CAPT.

Federal law requires that students with disabilities be educated with their non-disabled peers as much as is appropriate. Placement in separate educational facilities tends to reduce the chances of students with disabilities interacting with non-disabled peers, and of receiving the same education.

K-12 Students with Disabilities Placed in Educational Settings Other Than This District's Schools

SCHOOL DISTRICT IMPROVEMENT PLANS AND ACTIVITIES

The following narrative was submitted by this district.

School District Improvement Plans and Activities Regional School District 17 continues the use of specific building based Instructional Improvement Plans with measurable goals in the areas of language arts, science and mathematics. Each goal maintained in the Instructional Improvement Plans is monitored by means of a data collection model that contains an analysis component. All plans are made available publically via the school district's webpage at www.rsd17.org. We maintain common planning time for all teaching staff in Kindergarten through grade twelve to ensure active dialogue about a variety of data collected in the area of instruction. The district also maintains three positions of Teaching and Learning Specialists (one at each level) for the purpose of monitoring instruction as it relates to each plan fro improvement. Using a variety of funding sources, the Regional School District 17 has established a professional development plan that interfaces directly with the Instructional Improvement Plans at each school. This professional development plan offers staff training outside the parameters of the regular school year schedule. The district continues to support directed professional development opportunities for staff that correlate directly with areas where instructional diversity is needed. Over the past four years, the district has revised every area of curriculum. All curricula have been aligned with applicable national and state frameworks for instruction and is maintain in the Understanding by Design format. The district maintains a large support staff structure to assist in the areas of language arts and mathematics and has secured new resources for use with kindergarten through 6 in the areas of language arts, mathematic and science. In the area of special education, we continue to focus on increasing inclusion of disabled students with non-disabled students and have implemented formal pre-referral models at all schools. Ongoing collaboration between regular education and especial education staff continues to support new initiatives in the areas of teaching and learning.
