EQUITABLE ALLOCATION OF RESOURCES AMONG DISTRICT SCHOOLS

Below is the description submitted by this district of how it allocates resources to insure equity and address needs.

In school year 2009-2010 resources were distributed equitably throughout the Wallingford Public Schools. Staffing levels, instructional materials, repairs and maintenance budgets were consistent by level. Despite a per pupil expenditure that is lower than the state average, the Wallingford Public Schools continue to offer a highly successful program of studies throughout our district and across all grade levels.

Accommodations for a student's disability may be made to allow him or her to participate in testing. Students whose disabilities prevent them from taking the test even with accommodations are assessed by means of a list of skills aligned to the same content and grade level standards as the CMT and CAPT.

Federal law requires that students with disabilities be educated with their non-disabled peers as much as is appropriate. Placement in separate educational facilities tends to reduce the chances of students with disabilities interacting with non-disabled peers, and of receiving the same education.
