#### EFFORTS TO REDUCE RACIAL, ETHNIC, AND ECONOMIC ISOLATION

Below is the description submitted by this school of how it provides educational opportunities for its students to interact with students and teachers from diverse racial, ethnic, and economic backgrounds.

Several programs were held during the 2010-11 school year to help reduce racial, ethnic and economic isolation. The school year began with a school-wide assembly to hear Ed Gerety, a motivation speaker, make a presentation on respect, diversity, and acceptance. All school staff participated in a professional development activity focusing on diversity and tolerance called "A World of Difference". This three-hour program was given by the Anti-Defamation League. A school-wide assembly for students in grades 9 through 12 featured a musical performance by the Destiny Africa Children's Choir from Uganda. The choir members ate lunch with the high school students. They also presented a performance for the local elementary and middle school students. Students were allowed to visit and hear a presentation in school on HIV and view an AIDS quilt. Numerous schoolsponsored trips helped to foster individual and school growth. A group of students went to Costa Rica for 10 days and ended up establishing a relationship with a school in Costa Rica. Individual classes attended two Spanish and Latino plays in New York City, eating at a Peruvian restaurant. Other groups visited Hartford and various state and government buildings, traveled to the Berkshire Museum to visit a multicultural exhibit, and attended programs on anti-bullying. The school's library and media center celebrated Black History Month and Latino Literature with displays and special programs. The faculty and staff collected funds and provided food, clothing, presents, and other necessities to needy families at Thanksgiving and Christmas time. Numerous school publications and letters are now printed in Spanish. An ELL program is offered to students who have been identified as needing assistance in this area.

## EQUITABLE ALLOCATION OF RESOURCES AMONG DISTRICT SCHOOLS

Below is the description submitted by this district of how it allocates resources to insure equity and address needs.

The Gilbert School is a one-district school. Each sending district has a representative on the Finance Committee that develops and recommends the budget to the full Board of Education. These representatives are also members of the full Board. The Town of Winchester serves as the primary source of funding for The Gilbert School. A joint committee composed of Gilbert and Winchester Board members is involved in the budget process.

Accommodations for a student's disability may be made to allow him or her to participate in testing. Students whose disabilities prevent them from taking the test even with accommodations are assessed by means of a list of skills aligned to the same content and grade level standards as the CMT and CAPT.

Federal law requires that students with disabilities be educated with their non-disabled peers as much as is appropriate. Placement in separate educational facilities tends to reduce the chances of students with disabilities interacting with non-disabled peers, and of receiving the same education.

#### SCHOOL DISTRICT IMPROVEMENT PLANS AND ACTIVITIES

The following narrative was submitted by this district.

Curriculum writing is an ongoing process throughout the school year and during the summer. Lessons to improve test scores and CAPT-like assessments are integrated into the curriculum. Teachers conduct Common Formative Assessments in all areas as a means of collecting data for analysis. All students in grades 10 and 11 took the PSATs in 2010-11, with weekday time and funding being provided by the school. Steps were taken so that a S.A.T. prep course will be implemented in September 2011 for all students that are interested. The self-study for NEASC accreditation began during this past school year and will continue throughout the 2011-12 school year. In anticipation of the school accepting seventh and eighth grade students during the 2011-12 school year, staff attended a NELMS workshop in Providence. Staff development was also provided in the area of middle school education. A long-range strategic plan called 2020 was completed in 2009 and it continues to be the guiding force behind the implementation of 21st century skills.
