146-00 Rev. 11-6

STRATEGIC SCHOOL PROFILE 2008-09

Vernon School District

RICHARD PASKIEWICZ, Superintendent Location: 30 Park Street

Telephone: (860) 870-6000 Vernon,
Connecticut

Website: www.vernonschools.com/

This profile was produced by the Connecticut State Department of Education in accordance with CT General Statutes 10-220(c) using data and narratives provided by the school district, testing services, or the US Census. Profiles and additional education data, including longitudinal data, are available on the internet at www.sde.ct.gov.

COMMUNITY DATA

County: Tolland Per Capita Income in 2000: \$25,150

Town Population in 2000: 28,063 Percent of Adults without a High School Diploma in 2000*: 15.1% 1990-2000 Population Growth: -6.0% Percent of Adults Who Were Not Fluent in English in 2000*: 1.3% District Enrollment as % of Estimated. Student Population: 93.4%

District Reference Group (DRG): G DRG is a classification of districts whose students' families are similar in education, income, occupation, and need, and that have roughly similar enrollment. The Connecticut State Board of Education approved DRG classification for purposes of reporting data other than student performance.

STUDENT ENROLLMENT

DISTRICT GRADE RANGE

Enrollment on October 1, 2008 3,584 Grade Range PK-12 5-Year Enrollment Change -11.1%

INDICATORS OF EDUCATIONAL NEED

Need Indicator	Number in			
	District	District	DRG	State
Students Eligible for Free/Reduced-Price Meals	899	25.1	33.7	30.3
K-12 Students Who Are Not Fluent in English	66	1.9	3.3	5.2

SCHOOL DISTRICT DIVERSITY

Studer	nt Race/Ethnici	ty
Race/Ethnicity	Number	Percent
American Indian	20	0.6
Asian American	202	5.6
Black	426	11.9
Hispanic	348	9.7
White	2,588	72.2
Total Minority	996	27.8

Percent of Minority Professional Staff: 4.0%

Open Choice: 32 student(s) attended this district as part of the Open Choice program. Open Choice brings students from urban areas to attend school in suburban or rural towns, and students from non-urban areas to attend city schools.

Non-English Home Language: 5.9% of this district's students (excluding prekindergarten students) come from homes where English is not the primary language. The number of non-English home languages is 22.

EFFORTS TO REDUCE RACIAL, ETHNIC, AND ECONOMIC ISOLATION

Below is the description submitted by this school of how it provides educational opportunities for its students to interact with students and teachers from diverse racial, ethnic, and economic backgrounds.

Schools in Vernon continue to provide a variety of programs and experiences which are designed to reduce racial, ethnic and economic isolation. The administration of the Vernon Public Schools is continually encouraged with the positive response to its efforts provide a variety of programs and experiences which are designed to reduce racial, ethnic and economic isolation. Curriculum initiatives reflect cultural diversity, particularly in the areas of language arts, social studies, and the arts. Annually, a very successful "Taste of Languages" program is scheduled which permits and encourages participation from the entire town community. While the district has been a long time participant in Project Open Choice, and is committed to expanding this participation whenever possible, assuming, of course, that space and resources are available to support this expanded participation. For example, it is our desire to increase the number of seats offered to students at the elementary school level.

The district's schools also participate in sister school partnerships with schools from other communities. The Vernon Public Schools continue to be a member of the CREC Minority Teacher Recruitment program and actively seek minority applicants for both administrative and teaching positions within the district. Despite these efforts the success in attracting new minority educators has met with somewhat limited success, although it is still a major priority of the district's administrators.

Finally, each of our district's seven schools has maintained efforts to increase the number of learning activities offered to students, which are primarily designed to promote diversity.

STUDENT PERFORMANCE

Connecticut Mastery Test, Fourth Generation, % Meeting State Goal. The Goal level is more demanding than the Proficient level, but not as high as the Advanced level, reported in the No Child Left Behind Report Cards.

Grade and CMT Subject Area	District	State	% of Districts in State with Equal or Lower Percent Meeting Goal
Grade 3 Reading	37.5	54.6	14.5
Writing	50.9	62.5	17.0

EQUITABLE ALLOCATION OF RESOURCES AMONG DISTRICT SCHOOLS

Below is the description submitted by this district of how it allocates resources to insure equity and address needs.

The recent economic downturn in our state and nation, along with requirements under NCLB, has presented some new challenges to equitably allocate resources among the district's schools. For the past several years, the budget appropriation authorized for the Vernon Public Schools significantly challenged the district to maintain its high quality services and programs. The fair and equitable allocation of resources has become a growing challenge, considering dwindling available resources. Fortunately, the annual series of multiple budget referenda in our community seems to have abated and this is a somewhat encouraging sign. It has been the practice of the Vernon Board of Education and its central office administration that each school in the district should have comparable resources. Needless to say, it must also be recognized that certain factors such as expensive scientific equipment and specialized supply needs at the district's secondary schools are often inherently more expensive. Sufficient funds are budgeted so the students in each class in each school have an adequate supply of paper, pencils, textbooks, supplies, materials and access to technology. Equity in terms of staffing is also maintained based upon the Board of Education class size policy.

SPECIAL EDUCATION

Number of K-12 Students with Disabilities for Whom the District is Financially Responsible	363

For more detailed CMT or CAPT results, go to www.ctreports.com. To see the NCLB Report Card for this school, go to www.sde.ct.gov and click on "No Child Left Behind."

Participation in State Assessments of Students with Disabilities Attending District Schools					
CMT	% Without Accommodations	25.0			
	% With Accommodations 75.0				
CAPT	% Without Accommodations	26.5			
	% With Accommodations 73.5				
% Asse	ssed Using Skills Checklist	13.2			

Accommodations for a student's disability may be made to allow him or her to participate in testing. Students whose disabilities prevent them from taking the test even with accommodations are assessed by means of a list of skills aligned to the same content and grade level standards as the CMT and CAPT.

Federal law requires that students with disabilities be educated with their non-disabled peers as much as is appropriate. Placement in separate educational facilities tends to reduce the chances of students with disabilities interacting with nondisabled peers, and of receiving the same education.

K-12 Students with Disabilities Placed in Educational Settings Other Than This District's Schools

40.1 to 79.0 Percent of Time	60	16.5	14.6	16.1	
0.0 to 40.0 Percent of Time	50	13.8	15.2	11.2	

SCHOOL DISTRICT IMPROVEMENT PLANS AND ACTIVITIES

The following narrative was submitted by this district.

Several times during the school year, district administrators and members of the professional staff present detailed reports regarding student performance to the Vernon Board of Education. The Vernon Public Schools have been most aggressive in developing and implementing School Instructional Plans and a District Improvement Plan based upon the results of student achievement data. The district has fully embraced Connecticut's Accountability for Learning Model based upon the work of Dr. Douglas B. Reeves and the Center for Performance Assessment. The district's improvement plan is in full compliance with the Connecticut's Accountability for Learning Model and is supported by current research and best practice. The District Improvement Plan is reviewed and revised annually. The district recognizes the need to coordinate instruction not only across grade levels but also across its schools. The district also realizes the need to close the gap of achievement between its regular education and special education population. In addition, as a direct response to a recent focused monitoring report intended to decrease the number of students in all disability categories who are suspended or expelled, the district is currently reviewing all administrative practices and procedures.

While the district has recently received some disappointing news regarding compliance with NCLB standards, the fact is that the district is extremely proud of its successes regarding student achievement and its continuous efforts to improve and increase student achievement.

As part of its efforts to develop effective school improvement plans, it must be emphasized several times that parent involvement is critical to the success of any such improvement. Our schools have very strong and involved parent groups. To reinforce the value of these relationships, the superintendent and school administrators meet on a regular schedule from leadership from all of these valuable school organizations.

One major emphasis of the Vernon Public Schools has been to work diligently to increase, whenever and wherever possible, the inclusion of all students with disabilities into the regular education classroom. Of course, to support successful inclusion programs, professional development activities have to be offered in order to assist the staff develop and master a varied number of instruction practices. The planning and scheduling of successful professional development activities is quite often, for a variety of reasons, a very challenging task. The district also has placed added emphasis to embed professional development activities into daily schedules and responsibilities through professional conversations centered on student performance, study groups, research, coaching and mentoring and data teams to name just a few. The district is also committed to a successful implementation of a Response to Intervention model and recently has been developing plans to use recently designated AARA funds in a manner which would best benefit our students.
