### **Non-English Home Language:**

2.6% of this district's students (excluding prekindergarten students) come from homes where English is not the primary language. The number of non-English home languages is 10.

### EFFORTS TO REDUCE RACIAL, ETHNIC AND ECONOMIC ISOLATION

Below is the description submitted by this school of how it provides educational opportunities for its students to interact with students and teachers from diverse racial, ethnic, and economic backgrounds.

The Easton School District continues to demonstrate a commitment to provide students with multiple opportunities to develop global, ethnic, and cultural awareness. At Samuel Staples Elementary School students learn about other cultures and develop diverse perspectives through embedded instruction. Teachers use rich literature across genres to provide students an opportunity for discussion and learning. Students learn about famous historical figures, current events and fictional stories to develop their understanding of a diverse world. Additionally, some classes at Samuel Staples Elementary School participate in partnerships with schools of varying socio-economic status. Grade 5 students were Pen Pals with students at Wilbur Cross School in Bridgeport, CT and learned about the differences that exist between our communities which are less than 10 miles apart. In April, Samuel Staples held its 7th annual Diversity Day event. Created to celebrate differences in people, Diversity Day offered a variety of activities to help students understand and accept physical, ethnic, and learning differences in others. At Helen Keller Middle School students continue to benefit from a sister-school relationship with James J. Curiale School in Bridgeport, CT. This connection allows students an opportunity to connect with peers from another school and participate in community service and academic support experiences. Additionally, students take a leadership role in a number of different drives to collect food and other items and donate them to neighboring communities in need. Both Samuel Staples Elementary School and Helen Keller Middle School participate in the Open Choice, an urban/suburban cooperative program, designed to reduce racial, ethnic and economic isolation. Easton will include kindergarten students in the Open Choice program in the 2013 – 2014 school year.

Accommodations for a student's disability may be made to allow him or her to participate in testing. Students whose disabilities prevent them from taking the test even with accommodations are assessed by means of a list of skills aligned to the same content and grade level standards as the CMT and CAPT.

Federal law requires that students with disabilities be educated with their non-disabled peers as much as is appropriate. Placement in separate educational facilities tends to reduce the chances of students with disabilities interacting with non-disabled peers, and of receiving the same education.
