#### **Notes**

Unless otherwise noted, all data are for 2014-15 and include all grades offered by the district.

In most tables, data are displayed only for the three major race/ethnicity categories. For additional race/ethnicity categories, please visit <a href="EdSight.ct.gov">EdSight.ct.gov</a>).

State totals are not displayed as they are not comparable to district totals.

Special Education tables reflect only students for whom the district is fiscally responsible.

\* When an asterisk is displayed, data have been suppressed to ensure student confidentiality. N/A is displayed when a category is not applicable for a district or school.

## **Performance and Accountability**

### **District Performance Index (DPI)**

A District Performance Index (DPI) is the average performance of students in a subject area (i.e., ELA, Mathematics or Science) on the state summative assessments. The DPI ranges from 0-100. A DPI is reported for all students tested in a district and for students in each individual student group. Connecticut's ultimate target for a DPI is 75.

<sup>1</sup>NAEP is often called the "Nation's Report Card." It is sponsored by the U.S. Department of Education. This table compares Connecticut's performance to that of national public school students. Performance standards for state assessments and NAEP are set independently. Therefore, one should not expect performance results to be the same across Smarter Balanced and NAEP. Instead, NAEP results are meant to complement other state assessment data. <sup>&</sup>lt;sup>2</sup>The Connecticut Physical Fitness Assessment (CPFA) is administered to all students in Grades 4, 6, 8 and 10. The health-related fitness scores gathered through the CPFA should be used to educate and motivate children and their families to increase physical activity and develop lifetime fitness habits.

<sup>&</sup>lt;sup>3</sup>Only students assessed in all four areas are included in this calculation.

- SAT® composite score of 1550 or higher
- ACT® meets benchmark score on 3 of 4 exams (benchmark score varies by subject)
- AP® 3 or higher on any one AP® exam
- IB® 4 or higher on any one IB® exam
- Smarter Balanced Level 3 or higher on both ELA and math

<sup>6</sup>Participation Rate equals the number of test-takers in 11th and 12th grade divided by the number of students enrolled in those grades, as a percent. Sources:

### **Next Generation Accountability Results**

These statistics are the first results from Connecticut's Next Generation Accountability System for districts and schools. This system is a broad set of 12 indicators that help tell the story of how well a school is preparing its students for success in college, careers and life. It moves beyond test scores and graduation rates and instead provides a more holistic, multifactor perspective of district and school performance and incorporates student growth over time.

EASTCONN's magnet high schools and clinical day-treatment programs provide educational services, using research-supported models, that serve a wide variety of student needs and interests. Quinebaug Middle College (QMC), on the campus of Quinebaug Valley Community College (QVCC) provides highly personalized academic experiences and behavioral supports, project-based learning, and access to college and career pathways for non-traditional learners. Arts at the Capitol Theater (ACT) School provides an integrated curriculum in an authentic performing arts learning environment, where students are engaged in the production of numerous public arts performances. EASTCONN's clinical day-treatment programs provide intensive individualized, high-interest instruction taught by special education teachers with embedded support from psychological and behavior support services, vocational staff and related service personnel. These programs serve students who require a highly structured, supportive, therapeutic environment in order to achieve academic and behavioral success. Students in EASTCONN's programs acquire the academic, social, emotional and behavioral skills necessary to successfully return to their local public schools, or to a less restrictive environment.

In each school, EASTCONN has established evidence-based instructional and behavior management strategies that are focused on increased student learning. To promote greater student achievement, we have provided professional development opportunities throughout the year for teachers, instructors, and administrators in all of our schools and programs that help educators address the needs of diverse learners. For example, teachers attend workshops on differentiation of instruction, positive behavioral support, the use of technology to improve student learning, project-based learning, and the development of formative and performance-based assessments to assess student achievement of 21st century learning expectations. Systemic improvements have included the development of Student Assistance Resource Boards (SARBs) at each school, and education for staff, students, and families in components of positive behavioral supports and interventions. Our truancy specialist assists our magnet schools and day-treatment programs, as well as other districts in our region, in addressing truancy policy and prevention. Family engagement efforts have included family resource nights, family night dinners, student showcases and coffee houses. We continue to actively recruit parents to serve on our parent support committees as well as governance councils and climate committees. Our district-wide strategic plan is focused on the development of capable, ethical, healthy, and intellectually reflective citizens, and on enhancing educational options for students and families throughout northeastern Connecticut. This plan has established a set of strategic priorities focused on student success through strengthening partnerships among EASTCONN's regional and school-related stakeholders, collaborating to take advantage of diverse experiences and perspectives, and the effective use of resources and expertise among the communities, schools, and programs within EASTCONN.

### Efforts to Reduce Racial, Ethnic and Economic Isolation

EASTCONN promotes and embraces diversity in its own schools, programs and services. Our magnet high schools exist as a response to the need to reduce racial, ethnic, and economic isolation in northeastern Connecticut, and as a result of our recruitment efforts, our schools continue to be among the most diverse in the region. EASTCONN focuses its student outreach and recruitment activities to attract racial, ethnic, and economic minorities to its schools. We work with superintendents, principals, and guidance counselors to ensure that we reach a diverse applicant pool. Information describing our magnet schools and student services is disseminated widely throughout local communities. Brochures describing programs and application procedures are written in Spanish and English for distribution in local high schools, social-service and community-based organizations, and media serving cultural and ethnic minority communities in the region. In our schools and programs, EASTCONN develops culturally-sensitive curricula that promote respect for the diverse cultures of our students, their families, and our educators. Public performances by students in our schools celebrate diverse cultural arts and bring together audiences representing all cultural communities in the northeastern region. Our implementation of CSDE interdistrict grants that improve achievement and reducing racial, ethnic, and economic isolation have been vital to building personal and professional connections across our region's communities. Each year, twenty-five interdistrict grants have benefitted over 5,000 students in grades 2-12, and over 100 educators from 33 districts, bringing them together in exciting learning explorations in discipline/content-related studies and in sessions promoting understanding of social issues, bullying, respect and appreciation of diverse cultures. These experiences are important in a rural region that lacks transportation options, with reduced economic stability, few cultural venues, and a limited but growing student popul

## **Equitable Allocation of Resources among District Schools**

EASTCONN continues to maintain the fair and equitable distribution of resources across all of its programs, schools, and services to ensure that each student has access to a high-quality education. Our magnet schools' governing boards, which include superintendents from our partner districts, ensure that we provide equitable resource allocation to each of our schools. As magnet schools, financial support is grant-funded and established via legislation. We retain a zero-based budget process, allocate all resources that are critical to the effective operation of the schools. EASTCONN also collaborated throughout the year with our region's districts to

provide support needed to meet high performance standards, including the assignment of appropriate, high-quality staffing, distribution of technology resources, and professional learning. We continue to maintain regular processes for review and monitoring of our current programs, and to plan for the appropriate introduction of new programs and services that will serve our own students and districts across the region.
