Notes

Unless otherwise noted, all data are for 2015-16 and include all grades offered by the district.

In most tables, data are displayed only for the three major race/ethnicity categories. For additional race/ethnicity categories, please visit edsight.ct.gov.

State totals are not displayed as they are not comparable to district totals.

Special Education tables reflect only students for whom the district is fiscally responsible.

* When an asterisk is displayed, data have been suppressed to ensure student confidentiality. N/A is displayed when a category is not applicable for a district or school.

Performance and Accountability

District Performance Index (DPI)

A District Performance Index (DPI) is the average performance of students in a subject area (i.e., ELA, Mathematics or Science) on the state summative assessments. The DPI ranges from 0-100. A DPI is reported for all students tested in a district and for students in each individual student group. Connecticut's ultimate target for a DPI is 75.

¹NAEP is often called the "Nation's Report Card." It is sponsored by the U.S. Department of Education. This table compares Connecticut's performance to that of national public school students. Performance standards for state assessments and NAEP are set independently. Therefore, one should not expect performance results to be the same across Smarter Balanced and NAEP. Instead, NAEP results are meant to complement other state assessment data. To view student subgroup performance on NAEP, click here.

²The Connecticut Physical Fitness Assessment (CPFA) is administered to all students in Grades 4, 6, 8 and 10. The health-related fitness scores gathered through the CPFA should be used to educate and motivate children and their families to increase physical activity and develop lifetime fitness habits.

³Only students assessed in all four areas are included in this calculation.

- SAT® meets benchmark score on SAT, Revised SAT or Connecticut School Day SAT
- ACT® meets benchmark score on 3 of 4 exams (benchmark score varies by subject)
- AP® 3 or higher on any one AP® exam
- IB® 4 or higher on any one IB® exam
- Smarter Balanced Level 3 or higher on both ELA and math

⁶Participation Rate equals the number of test-takers in 11th and 12th grade divided by the number of students enrolled in those grades, as a percent. Sources:

⁷College entrance refers to the percent of high school graduates from the year who enrolled in college any time during the first year after high school.

Source: National Student Clearinghouse

²Cohort count includes all students in the cohort as of the end of the 2014-15 school year.

³Targets are calculated when there are at least 20 students in a cohort in the base year (i.e., 2010-11).

⁴Targets are not displayed at the state level.

⁸College persistence refers to the percent of students who enrolled in college the first year after high school and returned for a second year (Freshman to Sophomore persistence).

Next Generation Accountability Results

These statistics are the results from Connecticut's Next Generation Accountability System for districts and schools. This system is a broad set of 12 indicators that help tell the story of how well a school is preparing its students for success in college, careers and life. It moves beyond test scores and graduation rates and instead provides a more holistic, multifactor perspective of district and school performance and incorporates student growth over time.

Narratives

Wallingford Public Schools has made a commitment to increase opportunities for students to appreciate the diversity in the town, state, nation, and world. In the district, international nights occur at all levels. These events celebrate the many cultures found within our local community. Working closely with the Spanish Community of Wallingford (SCOW), Wallingford Public Schools has helped facilitate leadership and outreach programs for students of Latino descent.

With a growing English Language population, the district continues to expand programing and increase staff resources for families. In turn, we work to provide a welcoming environment for these students and families that leads to mutual understanding and appreciation.

Wallingford Public School students have participated in interdirstict grant programs with New Haven and Hamden. These opportunities continue to be explored and provided to our students whenever possible.

The Wallingford Public School curriculum has been written with an eye to cultural competence. English Language Arts and Social Studies curricula provide many authentic opportunities for students to explore diversity and expand their understandings. Student awareness of the diversity of individuals and cultures is also woven into health classes and the arts. By embedding these concepts throughout the student experience, it is authentic and meaningful.

Over the last six years, Wallingford Public Schools has made a significant commitment to international exploration and global competence development in our students. The district has school partnerships with Argentina, Germany, and Shanghai. Students travel to and from these countries to our district on a regular basis. The district just approved an official sixth month student exchange program with Germany.

Overall, working with our in-district staff and resources and providing out-of-district opportunities, Wallingford Public Schools continues to grow its efforts in fostering the understanding, appreciation, and acceptance for diversity in our schools. In addition to the Prek-12 system, Wallingford Adult Education offers a tremendous amount of programming for English Language learners and those seeking citizenship.

Equitable Allocation of Resources among District Schools

Wallingford Public Schools use a variety of methods for ensuring that resources are appropriately distributed to schools based on student needs. First, here is a per pupil allocation for instructional materials. Next, based on such indicators as special education, intervention, bilingual and English Language services needed, staffing is allocated for each school individually. Student plans and needs are reviewed individually and then appropriately planned and budgeted for annually.

To ensure these processes are effective, all administrators and special services providers meet regularly to review needs and resource allocation. The budget incorporates contingency funding in the event that additional resources are found to be needed in a particular school after the year has started.

The Wallingford Public School strategic plan incorporates the individual school needs with the district mission and vision. This document is updated three times annually to ensure that it continues to evolve with the changing needs of schools in the district.
