# HOME AND SCHOOL COMMUNICATION AND SUPPORT

**Teacher E-Mail Addresses:** All teachers at this school have been issued e-mail addresses. **Online Homework Information:** A portion of the school's website is devoted to homework pages.

The following narrative about how this school promotes and supports parental involvement was submitted by this school.

The Salem School learning community is fortunate to have an active and supportive PTO. With the assistance of the PTO, Salem School increased its efforts to secure parent and community volunteers in and out of the classrooms. Over the course of the past five years, the PTO has sponsored the Salem Read Hall of Fame as well as the Salem Summer Reading program and various school based assemblies and field trips.

Through the weekly Wednesday folder (accessible through the school web site and hardcopy) both school and community announcements and events are communicated to school parents. Likewise parents can access all levels of district, school and grade level information via the Salem School website. Teachers utilize the website to post homework as well as classroom projects and special assignments.

Over the last 3 ½ years Administrators from the District and the School have hosted "Coffees" – these informal forums have met with great success as they provide parents and community members an opportunity to voice

concerns, ask questions and provide feedback regarding a variety of District, School and grade related decisions and topics. The 2008-2009 school year also included a "Positive Parenting" program for its families attended by both parents of students from grades K-8.

# EFFORTS TO REDUCE RACIAL, ETHNIC, AND ECONOMIC ISOLATION

Below is the description submitted by this school of how it provides educational opportunities for its students to interact with students and teachers from diverse racial, ethnic, and economic backgrounds.

For a sixth year, Salem School has been an active participant in the Amistad Society, an intradistrict program designed to give students the opportunity to learn about the Amistad incident and its effects on current issues. Salem students participated in activities and field trips throughout the school year along with students from neighboring towns.

In past years, Salem students have had the opportunity to participate in additional intradistrict programs offered through the local resc, LEARN. Over the course of six trips during the 2005-2006 school year, Grade 4 students and their teachers took part in an intradistrict program sponsored by LEARN and Project Oceanology which paired 21 Salem 4th graders and 19 students from New London. The goal of the program was to provide diversity through the study of the local environment.

The 2008-2009 school year saw the continued participation of Grade 6 students in Nature's Classroom based program designed to provide students with an integrated learning experience of core subjects including team building, character education and environmental studies. Typically, this week long outdoor experience is shared with 2-3 schools form the New England region. Additionally in the 2008-2009 school year, grades 3 and 7 submitted and then participated in the ACES Interdistrict Grants: Online- A Writing Experience. The grant provided opportunities for Salem teachers to work collaboratively with urban area teachers to plan and implement common and shared learning experiences for their students. Via video conferencing students were able to explore, communicate, share, and analyze a variety of topics.

# **Disciplinary Offenses**

Disciplinary offenses committed by students include all serious offenses, offenses involving drugs, alcohol, or tobacco, and all incidents resulting in suspension or expulsion. In the 2007-08 school year, 18 students were responsible for these incidents. These students represent 3.5% of the estimated number of students who attended this school at some point during the 2007-08 school year. For more information and data on disciplinary offenses, go to www.sde.ct.gov, click on "CEDaR" and then on "Student Data."

Federal law requires that students with disabilities be educated with their non-disabled peers as much as is appropriate. Placement in separate educational facilities tends to reduce the chances of students with disabilities interacting with nondisabled peers, and of receiving the same education.

Connecticut Mastery Test, Fourth Generation, % of Students with Disabilities Meeting State Goal. The reading, writing and mathematics tests are administered to students in Grades 3 through 8, and the science test to students in Grades 5 and 8. The Goal level is more demanding than the Proficient level, but not as high as the Advanced level, reported in the No Child Left Behind Report Cards. The results below are for students attending district schools who participated in the standard assessment with or without accommodations for their disabilities.

Accommodations for a student's disability may be made to allow him or her to participate in testing. Students whose disabilities prevent them from taking the test even with accommodations are assessed by means of a list of skills aligned to the same content and grade level standards as the CMT.

# SCHOOL IMPROVEMENT PLANS AND ACTIVITIES

The following narrative was submitted by this school.

Salem School spent the past four years developing and implementing new standards based curriculums in the areas of Math, Science, Technology, and Developmental Guidance. Currently, the school is involved in the final stages of revising its Language Arts, Social Studies and "Unified Arts" curriculums. Curriculum writing teams are comprised of Administrators, Teachers, Parents and Community members. As part of the school improvement process, Teachers administer three common District Assessments a year to grades 3-8 in the areas of Math and Language Arts, as well as Science in grades 5 and 8. Grade level Teachers, Instructional Coaches and Administration meet monthly to review student progress. Salem School is in its third year of implementing SRBI. During the 2009-2010 school year, staff will continue to develop and improve its common assessment tools, and utilize the data driven decision making process for the adjustment and differentiation of instruction strategies according to student needs. Curriculum writing committees, Administrative sponsored "Coffees" and the PTO provide Parents and Community members opportunities to present ideas/concerns as well as feedback on existing and proposed actions. Parents and Community members are participants on the District's Facilities Committee, Curriculum Council and Safety Committee as well as the school based In-door Air Quality team. Salem School continues to work to expand Parent and Community involvement in school improvement planning.

Special Education programs saw improvements as hours were expanded in the integrated preschool program allowing for the development of life and social skills needed for success in school as well as additional time for PT, OT and Speech and Language services. A summer component was added for Pre-K in 2008 and continued in 2009 to sustain skills acquired during the school year. An increase in the use of assistive technology in both regular and special education, including the use of SMART boards, laptops and software designed to meet individual needs. Teachers receive ongoing in-service in the use of these technologies, as well as the impact of sensory integration disorders on readiness to learn.

#### SUPPLEMENTAL SCHOOL INFORMATION

The space below was optionally used by this school to describe aspects of the school not presented elsewhere in the profile.

Under the direction of Administrative teams at both the District and School level, the past five years have seen various new initiatives and programs at Salem School.

In January 2004, Salem School become part of the Team Nutrition pilot and has since crafted its school wellness policy and procedures, implemented changes (recess, physical education, lunch programs, snacks, celebrations and fundraising) in the school that reflect policy as well as maintained certified Healthy Foods school status. In addition to revised curriculums in Math, Science, Developmental Guidance Guaranteed Research and Informational Literacy curriculums have been incorporated in grades K through 8. Students participate in Math Olympiads and Math Counts.

Project Hope, a student community service group, has sponsored various projects: fundraising for the victims of the tsunami, Hurricane Katrina and Operation Uplink. 6th grade students participated in the Brigham's Ice Cream Kid Speak 2007 program, finishing as 1st runner up in the essay contest. Student musicians in grades 6, 7, and 8 continue participation in the Great East Festival (an opportunity for students to play for and receive suggestions from event judges). Through the support and direction of parent leaders 3 teams of students participated for a fourth year in Destination Imagination, again placing in the competition. The PTO also sponsors LEGO league.
