EFFORTS TO REDUCE RACIAL, ETHNIC AND ECONOMIC ISOLATION

Below is the description submitted by this school of how it provides educational opportunities for its students to interact with students and teachers from diverse racial, ethnic, and economic backgrounds.

All five schools are involved in programs that reduce racial, ethnic and economic isolation. Throughout the school year we strive to improve our children's understanding of the larger world. In Kindergarten, students experienced books on the life of Martin Luther King, Jr., Kwanza art activities and texts, traditions and artifacts of India and China. Multicultural curricular materials, celebrations and resources are utilized throughout the grades. Third grade students study different countries, and parents are encouraged to visit classes and share their culture, traditions, and ethnic food. Additionally, third grade students learn about customs, culture, and historical significance of dances and musical instruments from Brazil and Mexico. The fourth grade social studies curriculum focuses on the Native American culture; visits to the Pequot Museum occur and Indian celebrations are experienced. Our grade 6 and 7 social studies and Language Arts curricula focus on cultures around the world and the resolution of conflicts. Guest speakers and assembly programs enhance the curricula and further expand understandings of the global community and its diversity. Local clean up efforts helped our students to connect with others in the neighborhood, our local region, and our world. Students from China and Japan came to East Lyme and East Lyme families served as hosts. The Diversity Club, Amnesty International, Peace Club and the Gay/Straight Alliance continue to be active clubs on campus. Students traveled to Canada, Bermuda, and Spain this year. Freshman Academy and the Mentor/mentee program continue to promote tolerance, understanding, and good citizenship. A Global Education Task Force recommended two academic intersessions for ELHS students, one on the Italian Culture and another on the Chinese language and culture.

EQUITABLE ALLOCATION OF RESOURCES AMONG DISTRICT SCHOOLS

Below is the description submitted by this district of how it allocates resources to insure equity and address needs.

The Board of Education policy assures that each school in the district receives an equitable level of materials and financial resources. The budget process is partially based on projected enrollments at each school. The budget process assures that each student receives the necessary materials, supplies and texts. Programs serving multiple schools provide services to students equitably.

Accommodations for a student's disability may be made to allow him or her to participate in testing. Students whose disabilities prevent them from taking the test even with accommodations are assessed by means of a list of skills aligned to the same content and grade level standards as the CMT and CAPT.

Federal law requires that students with disabilities be educated with their non-disabled peers as much as is appropriate. Placement in separate educational facilities tends to reduce the chances of students with disabilities interacting with non-disabled peers, and of receiving the same education.

SCHOOL DISTRICT IMPROVEMENT PLANS AND ACTIVITIES

The following narrative was submitted by this district.

CMT data are reviewed to determine curricular and instructional areas of strength and areas in need of review. East Lyme Middle School has restructured the student services model to incorporate a special education teacher into each academic team in order to promote co-teaching. This program initiative is aimed at providing appropriate services to all students within the general education setting to the greatest extent possible. A number of new initiatives bring greater opportunity to our students:- A collaborative agreement with the Southeast CT Chinese School has brought Mandarin Chinese to East Lyme- A Task Force is studying ways to make an Alternative Education program more relevant and useful for our students- The new special education program now allows more students with special needs to be served in East LymeSchool based teams frequently review attendance information for students. Students and their families are supported by guidance counselors, psychologists, and social workers to improve attendance.
