#### **Notes**

Unless otherwise noted, all data are for 2019-20 and include all grades offered by the district.

In most tables, data are displayed only for the three major race/ethnicity categories. For additional race/ethnicity categories, please visit edsight.ct.gov.

State totals are not displayed as they are not comparable to district totals.

Special Education tables reflect only students for whom the district is fiscally responsible.

\* When an asterisk is displayed, data have been suppressed to safeguard student confidentiality, or to ensure that statistics based on a very small sample size are not interpreted as equally representative as those based on a sufficiently larger sample size.

N/A is displayed when a category is not applicable for a district or school.

Number of students in 2018-19 qualified as truant under state statute: 0

Number of school-based arrests: 0

NOTE: In the 2019-20 school year, due to the COVID-19 pandemic, in-person classes were cancelled in mid-March; all districts switched to fully remote instruction for the remainder of the school year. Chronic absenteeism calculations are based only on in-person school days.

<sup>&</sup>lt;sup>2</sup> This table represents students in grades PK-12 reported by the district in the Public School Information System (i.e., PSIS Reporting District).

<sup>&</sup>lt;sup>3</sup> Students in this category are students with an individualized education program (IEP) only. This category does not include students with Section 504 plans or services plans.

<sup>&</sup>lt;sup>4</sup> A student is chronically absent if they miss ten percent or greater of the total number of days enrolled in the school year for any reason. Pre-Kindergarten students are excluded from this calculation.

<sup>&</sup>lt;sup>5</sup> This column displays the count and percentage of students who receive at least one in-school suspension, out-of-school suspension or expulsion.

### **Performance and Accountability**

### **District Performance Index (DPI)**

A District Performance Index (DPI) is the average performance of students in a subject area (i.e., ELA, Mathematics or Science) on the state summative assessments. The DPI ranges from 0-100. A DPI is reported for all students tested in a district and for students in each individual student group. Connecticut's ultimate target for a DPI is 75.

NOTE: Due to widespread school closures related to the novel Coronavirus disease (COVID-19), Connecticut's request for a waiver of statewide assessment, accountability and reporting requirements in the Elementary and Secondary Education Act (ESEA) for the 2019-2020 school year was approved. Therefore, no table is shown here. For additional information, please view Connecticut's waiver response at: https://portal.ct.gov/-/media/SDE/Student-Assessment/Main-Assessment/CT-Covid19-WaiverResponse.pdf

## National Assessment of Educational Progress (NAEP): Percent At or Above Proficient<sup>1</sup>

	NAEP	NAEP 2013	
READING	Grade 4	Grade 8	Grade 12
Connecticut	40	41	50
National Public	34	32	36
MATH	Grade 4	Grade 8	Grade 12
Connecticut	45	39	32
National Public	40	33	25

<sup>1</sup> NAEP is often called the "Nation's Report Card." It is sponsored by the U.S. Department of Education. This table compares Connecticut's performance to that of national public school students. Performance standards for state assessments and NAEP are set independently. Therefore, one should not expect performance results to be the same across Smarter Balanced and NAEP. Instead, NAEP results are meant to complement other state assessment data. To view performance on NAEP by student group, click here.

### Physical Fitness Tests: Students Reaching Health Standard

NOTE: Due to widespread school closures related to the novel Coronavirus disease (COVID-19), Connecticut's request for a waiver of statewide assessment, accountability and reporting requirements in the Elementary and Secondary Education Act (ESEA) for the 2019-2020 school year was approved. Therefore, no table is shown here. <sup>&</sup>lt;sup>2</sup> Cohort count includes all students in the cohort as of the end of the 2018-19 school year.

<sup>&</sup>lt;sup>4</sup> College persistence refers to the percent of students who enrolled in college the first year after high school and returned for a second year (Freshman to Sophomore persistence).

#### **Next Generation Accountability Results**

Connecticut's Next Generation Accountability System is a broad set of 12 indicators that help tell the story of how well a district/school is preparing its students for success in college, careers, and life. It moves beyond test scores and graduation rates to provide a more holistic, multifactor perspective of district and school performance.

NOTE: Due to widespread school closures related to the novel Coronavirus disease (COVID-19), Connecticut's request for a waiver of statewide assessment, accountability and reporting requirements in the Elementary and Secondary Education Act (ESEA) for the 2019-2020 school year was approved. Therefore, a modified table is shown below. All indicators that were not calculated for the 2019-20 school year (including overall Accountability Index) have been excluded and columns that referenced points have also been removed to avoid confusion. For additional information, please view Connecticut's waiver response at: https://portal.ct.gov/-/media/SDE/Student-Assessment/Main-Assessment/CT-Covid19-WaiverResponse.pdf

## Connecticut's State Identified Measurable Result (SIMR) for Children with Disabilities

Increase the reading performance of all 3rd grade students with disabilities statewide, as measured by Connecticut's English Language Arts (ELA)

Performance Index

NOTE: Due to widespread school closures related to the novel Coronavirus disease (COVID-19), Connecticut's request for a waiver of statewide assessment, accountability and reporting requirements in the Elementary and Secondary Education Act (ESEA) for the 2019-2020 school year was approved. Therefore, no SIMR data are available. For additional information, please view Connecticut's waiver response at:

### **Narratives**

### **School District Improvement Plans and Parental Outreach Activities**

The Unified School District #2 ("USD #2 or "District") is part of the Department of Children and Families ("DCF"). Conn. Gen. Stat. 17a-37(a) Students enter the district when they are placed in one of the residential facilities under the direct supervision of DCF, i.e. Albert J. Solnit Center for Children in East Windsor and Middletown. Children also are within the District when they have no nexus with any other school district in the state and are placed in a residential facility Conn. Gen. Stat 10-76d(e)(2). USD#2 established a Virtual Academy for secondary students under the care of the agency. This online program, supported by certified teachers, provides credit recovery, remediation, elective courses, and SAT prep.

The overwhelming majority of USD #2's population, above 80% of students, is comprised of students identified as being in need of special education and related services. As a first step to improving special education programs and services for students, the Individual Education Plan , as well as modifications for any student entering with a 504 Plan, are reviewed by the Pupil Services Specialist ("PSS") to address deficiencies, i.e. overdue evaluations; overdue student progress reviews; and/or possible modifications to the plan to address additional student needs. The PSS determines whether the team needs to meet prior to the next scheduled review date listed on the plan. In addition to assuring that students' plans address all of their needs, every PSS refers every student on their caseload who is suspected of being in need of special education and related services or who is suspected of needing a 504 plan for evaluation by the appropriate team. The reading and math assessments administered to all students entering the District are also used by PSS to determine whether a student should be referred for evaluation. USD #2 uses technology, i.e. IEP Direct, to monitor students' IEPs. Technology is also used to provide students with the services that they need. This includes securing age appropriate books on tape for those high school students who are learning to read and Kindles for those students needing communication assistance. To address the credit recovery needs of special education students, the District's teachers implement students' IEPs so that they can use the online credit recovery program to earn credit towards their high school diploma requirements.

Because USD #2 is a district whose schools are solely located within residential facilities, its special education programs are designed to meet the needs of children and youth with significant mental and behavioral health needs in collaboration with the treatment the students receive from the residential portion of the facility. Truancy is not a historic problem within USD #2 as both residential and school staff monitors the students going to and from school. However, to minimize the number of students who refuse to attend school, the District ensures that those students who remain on the unit receive work and are offered assistance with that school work by a certified teacher. USD #2 engages parents by ensuring that residential and school meetings concerning students are scheduled on the same day. This meeting coordination is an effort to recognize that the facilities might be far from the parents' homes.

### Efforts to Reduce Racial, Ethnic and Economic Isolation

The Unified School District #2 ("USD #2" or "District") only has students for a brief period, ranging from 2 weeks to 6 months. During this time, through assessment the district identifies each student's academic levels. The level of the student might have a correlation to significant interruptions in education or because the student needs additional assistance to learn This review includes a review of credits needed to obtain a high school diploma. USD #2 works to reduce racial, ethnic, and economic isolation by using this information to help students obtain their high school diploma through credit recovery and completing the courses in the necessary subject areas. USD #2 also assists students by providing the individualized assistance that they need if they qualify for special education and related services or services under Section 504 of the Rehabilitation act of 1973. This information is used to help each student be successful while within USD #2. The schools within USD #2 also strive to ensure that student's learn about their and other students' cultural heritage while enrolled in the district through guest speakers and cultural events.

### **Equitable Allocation of Resources among District Schools**

USD #2 works to ensure that every school had adequate resources to meet every student's needs. Within the district, the student population fluctuates throughout the year in each of the schools based upon the number of children sent to each of the two facilities, via the court or other referral, for treatment. The requirements articulated in students' IEPs have caused the movement of pupil services specialists and case aides based upon the needs of the students.
